Within the continuum of reproductive health care, antenatal care provides a platform for important health-care functions, including health promotion, screening and diagnosis, and disease prevention. It has been established that, by implementing timely and appropriate evidence-based practices, antenatal care can save lives. Endorsed by the United Nations Secretary-General, this is a comprehensive WHO guideline on routine antenatal care for pregnant women and adolescent girls. It aims to complement existing WHO guidelines on the management of specific pregnancy-related complications. The guidance captures the complex nature of the antenatal care issues surrounding healthcare practices and delivery, and prioritizes person-centered health and well-being --- not only the prevention of death and morbidity --- in accordance with a human rights-based approach.

Herbicide use is a common component of many weed management strategies in both agricultural and non-crop settings. However, herbicide use practices and recommendations are continuously updated and revised to provide control of ever-changing weed compositions and to preserve efficacy of current weed control options. *Herbicides - Current Research and Case Studies in Use* provides information about current trends in herbicide use and weed control in different land and aquatic settings as well as case studies in particular weed control situations.

The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

Coal will continue to provide a major portion of energy requirements in the United States for at least the next several decades. It is imperative that accurate information describing the amount, location, and quality of the coal resources and reserves be available to fulfill energy needs. It is also important that the United States extract its coal resources efficiently, safely, and in an environmentally responsible manner. A renewed focus on federal support for coal-related research, coordinated across agencies and with the active participation of the states and industrial sector, is a critical element for each of these requirements. Coal focuses on the research and development needs and priorities in the areas of coal resource and reserve assessments, coal mining and processing, transportation of coal and coal products, and coal utilization.

The book provides multiple perspectives and insights on the area of Inclusion, Equity and Access for people with disabilities and brings together various inclusive effective practices from 21 countries across the world most comprehensively in one book. The book documents perspectives from educational researchers and teacher educators through first-hand experience using cutting-edge research and conceptual understandings, thought processes, and reflections. The book brings together various methodologies to expose scientific truths in the area of disability and inclusion. Chapter authors utilize a self-reflective stance, representing state of the art theory and practice for exploring notions of disability. Authors examine cultural relational practices, common values and beliefs, and shared experiences for the purpose of helping cultural members and cultural strangers better understand interdependent factors. Each chapter is an attempt to unravel a thought provoking, comprehensive, and thorough understanding of the challenges and abilities of individuals with disabilities shaped by their own culture, society and country, re-engaging the promise of scientific research as a generative form of inquiry. The book is designed to be of use to a wide range of professionals; researchers, practitioners, advocates, special educators and parents providing information and or discussions on educational needs, health care provisions, and social services irrespective of country and culture.

"This handbook supports the quality auditor Body of Knowledge (BoK), developed for the ASQ Certified Quality Auditor (CQA) program. This edition addresses new and expanded BoK topics, common auditing (quality, environmental, safety, and so on) methods, and process auditing. It is designed to provide practical guidance for system and process auditors. Practitioners in the field provided content, example audit situations, stories, and review comments as the handbook evolved. New to the edition are the topics of common and special causes, outliers, and risk management tools. Besides the new topics, many current topics have been expanded to reflect changes in auditing practices since 2004 and ISO 19011 guidance, and they have been rewritten to promote the common elements of all types of system and process audits. The handbook can be used by new auditors to gain an understanding of auditing. Experienced auditors will find it to be a useful reference. Audit managers and quality managers can use the handbook as a guide for leading their auditing programs. The handbook may also be used by trainers and educators as source material for teaching the fundamentals of auditing"--

A century after the 1913 Natives' Land Act, there remains a land crisis in South Africa. How are we to understand the many dimensions of this crisis so that we can realistically move beyond the current inertia? The starting point for this book is that the current land reform policies in the country fail to take this colonial context of division and exclusion into account. This book examines the many dimensions of this crisis in urban areas, commercial farming areas and communal areas.
