This volume presents over 1070 coins (ca. 310 BC-AD 641) and 1320 examples of Late Roman and Early Islamic pottery. Kom al-Ahmer and Kom Wasit emerge as centers of an exchange network involving large-scale trade of raw materials to and from the central and eastern Mediterranean.

"This book focuses on how the principles and empirical knowledge within behavioral science can inform and improve firearm-related policy, practice, and research. It features a formal framework for the assessment of civilians seeking firearms permits, reinstatement of their firearms subsequent to revocation, and considerations for relevant others"--

This is the first book devoted to the use of social media and other internet-derived data in forming forensic clinical opinions of behavior. Designed for mental health practitioners, it outlines the challenges and the benefits of incorporating digital information in forensic assessments. It offers best practice guidelines geared to both criminal and civil psycho-legal questions. Each chapter includes a brief overview of the psycho-legal issues, clinical applications of consulting internet-based data,

ethical and legal considerations and real life, de-identified case examples. This book provides guidance to the clinician in an emerging technological environment in which there are few resources, and ensures a more scientific and legally sound practice.

In his new book, *Wounded: The Legacy of War*, Bryan Adams presents portraits of young British soldiers who have suffered life-changing injury in Iraq and Afghanistan or during training. His lens bears witness to their scars, disability and disfigurement. This unexpected directness challenges the viewer. At the same time the images reveal the sheer grit and bravery of the victims who, despite personal sacrifice, live each day with resolute vim, vigor and dignity. What we see are staggering portraits of inspiring individuals who whilst not faltering have stood the test of war and lived to tell the tale. The images come with haunting interviews which provide a narrative to each personal journey to recovery.

The bestselling primer on the social, political, and economic challenges facing Central and South America by The Economist editor and author of *Brazil*. Latin America has often been condemned to failure. Neither poor enough to evoke Africa's moral crusade, nor as explosively booming as India and China, it has largely been overlooked by the West. Yet this vast continent, home to half a billion people, the world's largest reserves of arable land, and 8.5 percent of global oil, is busily transforming its political and economic landscape. This book argues that rather than failing the test, Latin America's efforts to build fairer and more prosperous societies make it one of the world's most vigorous laboratories for capitalist democracy. In many countries—including Brazil, Chile and Mexico—democratic leaders are laying the foundations for faster economic growth and more inclusive politics, as well as tackling deep-rooted problems of poverty, inequality, and social injustice. They face a new challenge from Hugo Chávez's oil-fueled populism, and much is at stake. Failure will increase the flow of drugs and illegal immigrants to the United States and Europe, jeopardize stability in a region rich in oil and other strategic commodities, and threaten some of the world's most majestic natural environments. Drawing on Michael Reid's many years of reporting from inside Latin America's cities, presidential palaces, and shantytowns, the book provides a vivid, immediate, and informed account of a dynamic continent and its struggle to compete in a globalized world. "No one who seriously aspires to discuss Latin American politics, economics, and culture should go without reading *Forgotten Continent*."—National Interest

The Dispute Settlement Reports of the World Trade Organization (WTO) include Panel and Appellate Body

reports, as well as arbitration awards, in disputes concerning the rights and obligations of WTO members under the provisions of the Marrakesh Agreement Establishing the World Trade Organization. These are the WTO authorized and paginated reports in English. An essential addition to the library of all practicing and academic trade lawyers and needed by students worldwide taking courses in international economic or trade law. DSR 2015: Volume 2 reports on Argentina - Measures Affecting the Importation of Goods (WT/DS438, WT/DS444, WT/DS445).

A stylish and informative guide to the best of Midcentury Modern chair design. These are the top 100 most interesting, most controversial, or simply most beautiful chairs from the period spanning 1930 1970, according to expert curator and chair addict Lucy Ryder Richardson. Get to know the designers of the Modern era, and find out about the controversies, drama, gossip and intrigue that accompanied these fascinating figures. Featuring a range of top international names, including Robin Day, Charles and Ray Eames, Ernest Race, Arne Jacobsen, Pierre Paulin, Finn Juhl, Harry Bertolia, Ero Saarinen and Norman Cherner. There is also an exploration into materials and manufacturing processes, plus lots of information about the manufacturers that brought chair designs to the masses, such as Knoll, Herman Miller, Fritz Hansen and Asko. Packed full of design details, historical facts, quotes and anecdotes you can even find out the position in which the designers intended you to sit in their chairs! With a chair timeline , showcasing the very best of European, Scandinavian, Japanese and American design, this is the perfect book for collectors, enthusiasts and design junkies alike.
