Robert Wyatt started out as the drummer and singer for Soft Machine, who shared a residency at Middle Earth with Pink Floyd and toured America with the Jimi Hendrix Experience. He brought a jazz mindset to the 1960's rock scene, having honed his drumming skills in a shed at the end of Robert Graves' garden in Mallorca, Spain. Wyatt's life took an abrupt turn in 1973, when he fell from a fourth-floor window at a party and was paralyzed from the waist down. He reinvented himself as a singer and composer with the extraordinary album Rock Bottom, which he followed with an idiosyncratic string of records that uniquely combine the personal and political. Along the way, Robert has worked with the likes of Brian Eno, Bjork, Jerry Dammers, Charlie Haden, David Gilmour, Paul Weller and Hot Chip. Marcus O'Dair has talked to all of them—indeed anyone who has shaped, or been shaped by Wyatt over five decades. Different Every Time is the first biography of Robert Wyatt, and it was written with his full participation. It includes illustrations by Alfreda Benge and photographs from Robert's personal archive.

A history of Paris in twelve métro stops. Métro Stop Paris recounts the extraordinary and colorful history of the City of Light, by way of twelve Métro stops—a voyage across both space and time. At each stop a Parisian building, or street, or tomb or landmark sparks a story that holds particular significance for that area of the city. Dallas takes us to the jazz cellars and literary cafés of Montparnasse and Saint-Germain-des-Prés; the catacombs at Hell's Gate; and the Opéra during the days of Claude Debussy. A darker side of Paris emerges at the Trocadero stop and a charitable side at the Gare du Nord, which highlights the work of Saint Vincent de Paul. Finally, our journey ends at Père-Lachaise cemetery with the little-known story of Oscar Wilde's curious involvement in the Dreyfus affair, one of France's greatest legal scandals. From Hell (the Denfert-Rochereau stop on the south side of the city) to Heaven (the Gare du Nord at the north end of Paris), Métro Stop Paris carries readers on a journey of the heart and mind. Métro Stop Paris is a thinker's guide to Paris made up of "slices of life," little vignettes drawn from Paris's two thousand years of history. Taken separately, these are charming historic tales about a city known and loved by many, but read as a whole Métro Stop Paris goes straight to the heart of what is quintessentially Parisian.

LEGO Guns is packed with building instructions for five impressive looking "weapons" built entirely from LEGO TECHNIC parts. In this heavily illustrated 2-color book, you learn how to use LEGO TECHNIC pieces to build working model guns like the Warbeast, a sophisticated, fully-automatic submachine gun; Parabella, a semi-automatic pistol; Thriller, a slide action crossbow pistol with smooth cocking and chambering mechanisms; and the Magic Moth, a simple butterfly "knife" built with TECHNIC pieces. With the help of a bit of sanding, some rubber bands, and Crazy Glue, each gun actually shoots LEGO bricks at high speed, with surprising accuracy. The building instructions for each model are easy to follow and include detailed parts lists. LEGO Guns also includes sections discussing the general concepts of LEGO gun design and offers practical building tips and tricks. The models range from sophisticated to easy, and readers of all ages will find something enjoyable to build and play with.

The famed labor and environmental justice activist presents a cautionary assessment of the American union movement that notes the current low membership of unionized private-sector workers while sharing the stories of her victories, revealing current conflicts in organized labor and making recommendations for how labor can be revived.
