This book seeks to enhance our understanding of the causes of ethical debacles in an era when ethical missteps can often lead to corporate bankruptcies or worse. Sims offers practical solutions for mitigating damage and preventing such problems from happening in the first place. He also explains how to institutionalize ethics throughout an organization. Sims asserts that organizations wishing to behave ethically must do more than harbor good intentions. Such companies must implement policies that inculcate the corporate culture with ethical values. They must also commit to ethical behavior in all interactions with internal and external stakeholders, including investors, customers, employees, and the community.

And while these stories grab the headlines, some companies are adopting practices that display awareness of their impact on the globe, whether that be to the environment, its employees and suppliers, or communities in which they do business. What factors are leading to these decisions? What are the benefits and costs of making ethical business decisions and acting in a socially responsible way, however one defines it?"--

The goal of this volume is to begin to create those critical linkages between positive psychological attributes and relevant research areas. Undoubtedly, there are many topics in positive psychology that could not be covered in just one volume, and many more

topical linkages to business ethics and social responsibility that need to be made. While much research yet needs to be done in this nascent area, we hope that much as other volumes on positive psychology served as an impetus for research in social psychology (see Snyder & Lopez, 2002) and organizational behavior (Cameron, Dutton, & Quinn, 2003), this volume will ignite scientific interest in the role positive psychology plays in key areas such as ethics and social responsibility. As the study of positive psychology continues to emerge more fully, it may well help us to better comprehend the impact of this paradigm on predicting ethical decision making, organizational citizenship, and social responsibility toward the end of creating more positive and productive workplaces in general.
