This workbook accompanies Mark L. Strauss's Four Portraits, One Jesus. Following the textbook's structure, it offers readings from the Gospels, activities, and exercises designed to support the students' learning experience and enhance their comprehension of what can be known from the Gospels about the central defining subject of Christianity, Jesus of Nazareth. Four Portraits, One Jesus is a thorough yet accessible introduction to the four biblical Gospels and their subject, the life and person of Jesus. Like different artists rendering the same subject using different styles and points of view, the Gospels paint four highly distinctive portraits of the same remarkable Jesus. With clarity and insight, Mark Strauss illuminates these four books, first addressing their nature, origin, methods for study, and historical, religious, and cultural backgrounds. He then moves on to closer study of each narrative and its contribution to our understanding of Jesus, investigating things such as plot, characters, and theme. Finally, he pulls it all together with a detailed examination of what the Gospels teach about Jesus' ministry, message, death, and resurrection, with excursions into the quest for the historical Jesus and the historical reliability of the Gospels.

Both a comprehensive lab manual and a practical workbook, the Study Guide and Laboratory Manual for Physical Examination and Health Assessment 8th Edition, gives you the tools you need to master physical examination and health assessment skills. Corresponding to the best-selling Jarvis textbook, this guide features reading assignments, terminology reviews, application activities, review questions, clinical learning objectives, regional write-up sheets, and narrative summary forms, with answers at the back to facilitate both learning and review. The 8th Edition has been thoroughly updated throughout with a fresh focus on interprofessional collaboration to prepare you for the skills laboratory and interprofessional collaborative practice. Authoritative review and guidance for laboratory experiences personally written by Dr. Jarvis to give you a seamlessly integrated study and clinical experience. Consistent format throughout text includes Purpose, Reading Assignment, Terminology Review, Study Guide, and Review Questions in each chapter. Essential review and guidance for laboratory experiences familiarizes you with physical examination forms and offers practice in recording narrative accounts of patient history and examination findings. Study Guide in each chapter includes short-answer and fill-in-the-blank questions. The only full-color illustrated lab manual available for a nursing health assessment textbook enhances learning value with full-color anatomy and physiology labeling activities and more. NEW! Updated content throughout corresponds to the 8th edition of the Jarvis textbook and reflects the latest research and evidence-based practice. NEW! Enhanced integration of interprofessional collaboration exercises helps you create an SBAR report based on a brief case.

Designed to accompany the new Third Edition of the National Academy of Sports Medicine's NASM Essentials of Personal Fitness Training, this study guide is suitable for coursework and for students preparing for the NASM Certified Personal Trainer certification exam. It includes matching, vocabulary, short answer, and multiple-choice exercises. Answers are also provided.

Jarvis's Laboratory Manual for Physical Examination & Health Assessment ANZ 2e is a practical step-by-step laboratory manual designed to develop competence in history taking and physical examination skills. Each chapter guides students through a glossary, study guide, review questions and varied exercises, as well as exploring practical skills and health assessment documentation, including Regional Write-Up Worksheets. Fill-in-the-blank, matching, true/false, and multiple-choice questions to test your understanding of the material Spelling, terminology, measurements, cultural and social considerations, clinical procedures and best practice guidelines updated to reflect the most recent Australian and New Zealand standards Part of a revised comprehensive and revised learning package, including Jarvis's Physical Examination & Health Assessment ANZ 2e and Jarvis's Pocket Companion for Physical Examination & Health Assessment ANZ 2e Includes Study Guide Answer Key on evolve Risk and safety: screening for substance abuse chapter Revised contents fully aligned to Jarvis's Physical Examination & Health Assessment ANZ 2e to reflect the increased focus on the relevance of the health assessment areas to the functional status of the person

Reinforce your understanding of essential examination and assessment skills! As both a comprehensive lab manual and a practical workbook the Laboratory Manual for Physical Examination and Health Assessment, 3rd Canadian Edition provides you with activities and resources to enhance hands-on learning. It features reading assignments corresponding to the text, terminology reviews, application activities, review questions, clinical learning objectives, regional write-up sheets, and narrative summary forms. In addition, this new version includes content on the Electronic Health Record to help you document your findings along with evidence-informed practice materials to further improve upon skills. Anatomy labelling exercises reinforces the identification of key anatomy and physiology. Reading assignments correspond to the text chapters to foster integration of the text and laboratory manual. A glossary promotes learning and understanding of essential terminology. Study guide activities reinforce the learning of key assessment information. Review questions—short answer, matching, multiple choice—provide learning activities in a variety of approaches. Clinical-learning objectives focus your study efforts on outcomes. Audio-visual assignments tie the visual video demonstrations of specific examination procedures to practical applications in the skills lab. Regional Write-up Sheets allow you to assess knowledge with forms used in the skills lab or clinical setting. Narrative Summary Forms reflect charting format used for narrative accounts of the history and physical examination findings. NEW! Coverage of the Electronic Health Record, charting, and narrative recording gives you examples of how to document assessment findings.

Have you ever wondered why a group of remarkable individual performers can get together and fail as a team? You can have all the talent in the world, but if individuals do not share common goals, coordinate their efforts, and trust one another to carry their share of the load, then you don't have a team. So how does a team manager bridge this divide between individual performance and team performance? It turns out they construct that bridge on three simple building blocks: team alignment, team process, and team relationships.

A concise, practical guide to effective teaching with a focus on the professional education of graduate students and adults. • Faculty and librarians new to teaching will appreciate the concise, practical advice for designing courses for effective learning • All faculty will appreciate tips on authentic assignment design and effective feedback, engaging and supporting students, and managing their workload • The book has a unique focus on teaching graduate students and adults in the LIS field

Ancient history is fascinating, but it can be difficult to find material that teaches it from a Christian perspective. Even harder is finding a history curriculum that captivates students. But Angela O'Dell's newly revised The World's Story 1 - The Ancients does both! Students will learn all about the ancient civilizations of the Middle East, Europe, Africa, Asia, and the Americas from a strong Biblical perspective. Focuses on History and interweaves a Christian perspective throughoutFeatures an engaging historical narrativeFirst volume in a three-book world history series for upper elementary and junior high students The text covers Biblical history, also educating students about civilizations mentioned in the Bible, including ancient Egypt, ancient Israel, ancient Babylon, ancient Persia, ancient Greece, and ancient Rome, up to the development of the early Church. It also discusses other ancient civilizations from around the world.
