Ian Wilkie contends that comic acting is a distinct art form, and as such demands a unique skillset. By exploring the ways in which performance choices and improvised moments can work in conjunction with texts themselves, *Performing in Comedy* offers an indispensable practical tool for enhancing comic performance. This volume is a must-read for any actors, directors or students who work with comic texts. Wilkie synthesises theories and principles of comedy with practical tips, and re-evaluates the ways in which these ideas can be used by the performer. Most importantly, these skills – timing, focus, awareness – are teachable rather than being innate talents. Exercises, interviews and guides to further resources enhance this comprehensive exploration of comic acting.

Available again after a long absence! Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby' Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

This is a maintenance and repair manual for the DIY mechanic. It provides all you need to know about servicing the Citroen 2CV.
