ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Building on the research-proven instructional techniques introduced in Knight's Physics for Scientists and Engineers, the most widely adopted new physics text in more than 30 years, College Physics: A Strategic Approach set a new standard for algebra-based introductory physics--gaining widespread critical acclaim from professors and students alike. For courses in algebra-based introductory physics. Make physics relevant for today's mixed-majors students College Physics: A Strategic Approach, 4th Edition expands its focus from how mixed majors students learn physics to focusing on why these students learn physics. The authors apply the best results from educational research and Mastering(tm) Physics metadata to present basic physics in real world examples that engage students and connect physics with other fields, including biological sciences, architecture, and natural resources. From these connections, students not only to learn in research-driven ways but also understand why they are taking the course and how it applies to other areas. Extensive new media and an interactive Pearson eText pique student interest while challenging misconceptions and fostering critical thinking. New examples, explanations, and problems use real data from research to show physics at work in relatable situations, and help students see that physics is the science underlying everything around them. A Strategic Approach, 4th Edition, encourages today's students to understand the big picture, gain crucial problem-solving skills and come to class both prepared and confident. Also available with Mastering Physics Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and often improves results for each student. With Learning Catalytics(tm) instructors can expand on key concepts and encourage student engagement during lecture through questions answered individually or in pairs and groups. Students also master concepts through book-specific Mastering

"College textbook for intro to physics courses"--

This text blends traditional introductory physics topics with an emphasis on human applications and an expanded coverage of modern physics topics, such as the existence of atoms and the conversion of mass into energy. Topical coverage is combined with the author's lively, conversational writing style, innovative features, the direct and clear manner of presentation, and the emphasis on problem solving and practical applications.

Freedman College Physics, Second Edition, is a student-centered text and homework program for introductory, algebra-based physics courses. With a focus on conceptual understanding and biological applications, College Physics makes the relevance of physics clear to students. The Sapling Plus system combines the heavily researched FlipIt Physics prelectures (derived from smartPhysics) with a robust homework system, in which every problem has targeted feedback, a hint, and a fully worked and explained solution. Freedman, College Physics Second Edition and SaplingPlus This new integrated learning system brings together a ground-breaking media program with an innovative text presentation of algebra-based Physics. An experienced author team brings together a unique set of expertise and perspectives to help students master concepts and succeed in developing problem-solving skills necessary for College Physics. Now available for the first time with Sapling Plus--an online learning platform that combines the heavily research based FlipItPhysics prelectures (derived from smartPhysics) with the robust Sapling homework system, in which every problem has targeted feedback, hints, and a fully worked and explained solution. This HTML5 platform gives students the ability to actively read with a fully interactive ebook, watch pre-lecture videos and work or review problems with a mobile accessible learning experience. Integration is available with Learning Management Systems to provide single sign on and grade-sync capabilities and compatible with the iClicker 2 and other classroom response systems to provide a seamless full course experience for you and your students.
