Not only that, but he 's going to do it both forward and backward—from one to ten, and then ten to one! With this colorful book featuring classic illustrations by H.A. Rey, “ youngsters count along with ‘ 1 curious monkey ’ as he points out ‘ 2 dinosaurs, ’ ‘ 3 tasty donuts ’ and up to ‘ 10 paper boats ’ before counting down again ” (Publishers Weekly).

After repeatedly disastrous efforts to get himself out of trouble, George ends up being the first monkey in space.

Curious George embarks on an out-of-this world adventure and lends some helping hands—and feet—to save the space station astronauts. George is thrilled to visit the Space Center to help Professor Pizza and Professor Einstein. First up, he 's making a special delivery to the international space station. Then it 's time to help solve a problem with the Mars rover, and George dreams of going where no monkey (or human) has gone before—Mars! Join George on an exciting journey into outer space and learn all about space travel, gravity, the solar system, and Mars. Based on the Emmy-winning PBS show, this story is filled to the brim with additional facts, real photos, experiments, activities, and more. Learning about science has never been so much fun!

The Curious George Super Sticker Coloring Book is filled with 64 exciting pages to color and more than 600 fun and unique stickers. The adorable art features such classic scenes as George 's famous rocket ride, kite-flying and bicycle adventures, trips to the zoo and park, and much more!
