Learn all about Islam, the world's fastest growing religion. From Ramadan and the Qur'an, to the traditional dress, feasts, and rich design - all this and more are explained in this unique guide. Filled with colourful photographs and vibrant history, delve into Islam's culture and communities, and find out the answers to questions such as why Muslims fast, what are the five pillars of Islam, and what happens during the pilgrimage to Mecca? Stunning photography brings the culture alive on the page, while ancient objects, such as inscribed coins and scientific instruments, illustrate the rich history of this influential world religion. Learn how Islam spread across many continents, from Spain to China, and find out about the annual festivals in the Muslim calendar. Understand the layout of a mosque, and Islam's role in scholarly learning, from astronomy to mathematics and medicine. Learn about the first conquests and the arms and armour of the Islamic world, including gilded battle-axes and decorated shields, and read about Islam's important figures, including the scholar Avicenna, the traveller Ibn Battuta, and the military leader Saladin. DK Eyewitness Islam also includes a poster for you to hang on your wall. All this and more makes DK Eyewitness Islam the perfect guide to Islam for kids, helping them to understand this important religion, and discover its fascinating history and culture.

A Social History of American Technology, Second Edition, tells the story of American technology from the tools used by its earliest inhabitants to the technological systems—cars and computers, aircraft and antibiotics—that we are familiar with today. Ruth Schwartz Cowan and Matthew H. Hersch demonstrate how technological change has always been closely related to social and economic development, and examine the important mutual relationships between social history and technological change. They explain how the unique characteristics of American cultures and American geography have affected the technologies that have been invented, manufactured, and used throughout the years—and also the reverse: how those technologies have affected the daily lives, the unique cultures, and the environments of all Americans.

Un état des lieux international sur les incubateurs dans les pays leaders. Une réflexion sur le management et l'organisation des incubateurs, ainsi que sur le rôle de la puissance publique et des entreprises privées.

Mid-western college professor Natalie Abbott is estranged from her dysfunctional family. It happened so slowly she barely noticed... Then it was too late. On the cusp of landing her dream job, Natalie is forced to New Orleans in search of her runaway teenage brother Joshua. Desperately short of clues, she's grateful that NOPD Detective Adele Lejeune seems to genuinely care. Detective Lejeune's interest in Joshua's disappearance dangerously shifts from professional to intensely personal, as do her feelings for Natalie. The women doggedly navigate the depths of the city's seething underbelly as they work to solve the tangled mystery that is poised to crush Natalie's heart and leave Adele's life in ruins. Best-selling, award-winning author Blayne Cooper exposes the intrigue of the Big Easy in this epic story of dedication, risk and passion.

Presents the account of the use of mechanical ventilation in critically ill patients. This title features coverage that addresses important scientific, clinical, and technical aspects of the field as well as chapters that encompass the full scope of mechanical ventilation, including the physical basis of mechanical ventilation.

Describes the feelings of a little girl after her dog dies and features information for parents on helping a child cope with grief.
