Sandblasting Equipment 6.5 cu.ft. BIG GUN pressure hold ...

Siphon Sandblaster. Siphon sandblasters work in basically the opposite way as the gravity-feed sandblasters. The container for these sandblasters is located below the gun instead of above. The pressure from the air traveling through the gun creates a suction, and the media in the container is caught in it and blasted out.

The major subject headings are alphabetized and cross-referenced within the text, and it has a detailed index. Spiral bound, 8.5 x 5.5"

Multistate Guide to Sales and Use Taxation: Construction provides guidance to construction contractors for dealing with the difficult sales and use tax issues inherent in their businesses, particularly if they operate in several states. In addition to the usual problems in complying with different bodies of law, administering a hodge-podge of state and local tax rates, and dealing with a variety of tax agency audit programs, the contract process and insufficient recordkeeping further complicate an already complicated task.
