Our verdict on the
Ford Focus 1.6 TDCi
Econetic Edge Among
the excellent but

somewhat stately
Focus range, the
Econetic model is a
necessity rather than
a flagship. It adds to
the range a headline
act only in terms of
fuel economy, and in
almost all other ways
is comparatively
lacklustre for its price.

The report discusses
how economic
instruments can be
used to reduce CO2
emissions from
passenger cars in the
Nordic countries. The

analysis indicate that:
the registration tax
and the annual
circulation tax can
contribute to a
reduction in the
average CO₂
emission from new
cars; company car
schemes in the Nordic
countries provide
incentives for larger
cars and increased
driving because of

subsidies, and this has long term effect as a large share of new cars are registered as company cars but are used as private cars most of their lives; CO2 differentiated taxes can provide incentives to consumers to purchase CO2 efficient cars; targeted

broader packages
which besides
providing tax

more effective than
general tax increases;
transparency of
targets and
instruments is crucial
for a large diffusion of
CO₂ efficient cars.
