People with inborn talent may be good at what they do—but only the mentally tough reach the highest plateaus in their field. From bestselling author and mental toughness expert Jason Selk comes a mind-training regimen for reframing every problem into an opportunity for productive action. The most common cause of failing to reach our professional and personal goals is hardwired in us: Humans instinctively focus on problems. Over millennia, our very survival relied on our ability to be alert to any potential dangers that could threaten our existence. But today this negativity bias significantly limits our potential and increases stress, pressure, and underperformance. The one characteristic all phenomenally successful people share is mental toughness. Mentally tough people are better at making decisions more quickly and with better results. They possess the uncanny ability to control what goes on between their ears. Instead of allowing their minds

to focus on their problems when adversity strikes, the most successful people have learned to direct their thoughts in a systematic manner that produces positive emotions and productive actions: they have a Relentless Solution Focus. In this book, top performance coach Dr. Jason Selk—former Director of Mental Training for the World Series champions St. Louis Cardinals—and his colleague Dr. Ellen Reed provide the insight, tools, and proven step-by-step framework for you to do the same. When you have Relentless Solution Focus, you think better. Your decisions garner positive results. You take action and follow through—every time. And when you do get off track, you get back on with less effort and less drama. Weakness shrinks and strength grows, creating confidence and momentum, taking you and your team to higher levels of performance and achievement.

Watch a triumphant speech after a sports championship or business milestone, and you'll almost always hear some variation of this catchphrase: "It couldn't have happened without the great team we have." It doesn't matter if you're the owner of a 10,000-employee Fortune 500 company or running a small business, you're a part of a team. With a combined 50 years of experience building, managing, advising, and troubleshooting teams in both the business and sports worlds, Jason Selk and Tom Bartow now reveal the common DNA that links the highest performing teams. In *Organize Your Team Today*, Selk and Bartow show how it takes collective mental toughness to win, developed only through a clear understanding of the goals, limitations, roles and personalities on your team. Great leaders respect and embrace channel

capacity, Selk and Bartow explain, which means they don't overload their teams with blizzards of tasks and responsibilities. They bust the "focus" and "relationship" fallacies, as those words are meaningless for teams unless they are byproducts of activities that really matter. And Selk and Bartow teach how to manage expectations, since doing so creates a level of respect between the leader and the team--and among the team members--that is a catalyst for peak achievement.
