The book of Joshua memorializes a transitional episode in Israel's national history. The heroic figure Joshua, imbued with strength, courage and faith, leads the new generation of Israel across the Jordan into the land of promise. Richard S. Hess explores the historical, theological and literary dimensions of the book of Joshua.

The Bible is both a divine and a human book. It is the inspired word of God for his people, whether in biblical times or for the church today. It is also a fully human book, written by different people in a variety of cultural settings. Knowledge of biblical language and society is essential if the meaning of the human writer is to be grasped fully. The Apollos Old Testament Commentary aims to take with equal seriousness the divine and human aspects of Scripture. In this volume, Pekka Pitkänen shows the relevance of Joshua to modern

readers. While he remains anchored in the world of the text throughout the commentary, Pitkänen brings contemporary geopolitical issues (like the Israeli-Palestinian conflict) to bear on Joshua and the genocidal "Israelite conquest tradition."

Joshua, which is part of the NIV Application Commentary Series, helps readers learn how the message of Joshua can have the same powerful impact today that it did when it was first written.

An acknowledged expert on the Hebrew Bible, Thomas Dozeman offers a fresh translation of the Hebrew and Greek texts of the book of Joshua and explores the nature, function, and causes of the religious violence depicted therein. By blending the distinct teachings of Deuteronomy and the Priestly literature, Dozeman provides a unique interpretation of holy war as a form of sacred genocide, arguing that, since peace in the promised land required the elimination of the populations of all existent royal cities, a general purging of the land accompanied the progress of the ark of the covenant. This essential work of religious scholarship demonstrates how the theme of total genocide is reinterpreted as partial conquest when redactors place Joshua, an independent book, between Deuteronomy and Judges. The author traces the evolution of this reinterpretation of the central themes of religious violence while providing a comparison of the two textual versions of Joshua and an insightful analysis of the book's reception history.

Woudstra's work on the Book of Joshua is a contribution to The New International Commentary on the Old Testament. Like its companion series on the New Testament, this commentary devotes considerable care to achieving a balance between technical information and homiletic-devotional interpretation.

Joshua began as a collaboration between G. Ernest Wright, the distinguished biblical scholar and archaeologist, and his student, Robert G. Boling. After Wright's death, Professor Boling, who also did the translation and commentary for Judges, finished the task alone.

Boling's extensive treatment includes not only an entire new translation of Joshua and a complete commentary on the text, but also comprehensive notes, numerous bibliographies, four pages of illustrations, and eleven maps especially commissioned for this volume. In addition to exhaustive research and excellent scholarship, there is also Dr. Wright's 135-page introduction, completed just before his death, which provides not only an informed foreword to the text of Joshua but also a summary of his previous writings on Israel's formative years.
