LUMBER MANUFACTURING ACCOUNTS in arriving at the annual charge. If the depreciation charge, however, is based on the available supply, the facts of the case must warrant this method of treatment. The supply should be available for the use of that particular mill only, and there must be a very reasonable assumption that these

Lumber Manufacturing Accounts: Amazon.es: Jones, Arthur Francis: Libros en idiomas extranjeros

Excerpt from Lumber Manufacturing Accounts The operations of the sash and door factory, bending works, veneer works, and other subsidiary plants, except as they affect the general operations of the sawmill, have not been dealt with. These involve more or less elaborate systems of cost accounting, and therefore merit separate treatment. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is
