It was uniquely French, uniquely Citroen and its modern day successor was the first generation of this car, Citroen's Berlingo. The Berlingo has been on sale as both a van and a van-based MPV for over two decades now, the MPV version previously badged 'Berlingo Multispace'. This third generation model is to be known simply as 'Berlingo'. Whatever you want to call it, this model line has been a ...

The concept of CAST as Computer Aided Systems Theory, was introduced by F. Pichler of Linz in the late 80's to include those computer theoretical and practical developments as tools to solve problems in System Science. It was considered as the third component (the other two being CAD and CAM) that will provide for a complete picture of the path from Computer and Systems Sciences to practical developments in Science and Engineering. The University of Linz organized the first CAST workshop in April 1988, which demonstrated the acceptance of the concepts by the scientific and technical community. Next, the University of Las Palmas de Gran Canaria joined the University of Linz to organize the first international meeting on CAST, (Las Palmas February 1989), under the name EUROCAST'89, that was a very successful gathering of systems theorists, computer scientists and engineers from most of European countries, North America and Japan. It was agreed that EUROCAST international conferences would be organized every two years. Thus, the following EUROCAST meetings took place in Krems (1991), Las Palmas (1993), Innsbruck (1995), Las Palmas (1997), Vienna (1999) and Las Palmas (2001), in addition to an extra-European CAST Conference in Ottawa in 1994. Selected papers from those meetings were published by Springer-Verlag Lecture Notes in Computer Science nos. 410, 585, 763, 1030, 1333, 1728 and 2178 and in several special issues of Cybernetics and Systems: an International Journal. EUROCAST and CAST meetings are definitely consolidated, as it is demonstrated by the number and quality of the contributions over the years.

Ian Wilkie contends that comic acting is a distinct art form, and as such demands a unique skillset. By exploring the ways in which performance choices and improvised moments can work in conjunction with texts themselves, *Performing in Comedy* offers an indispensable practical tool for enhancing comic performance. This volume is a must-read for any actors, directors or students who work with comic texts. Wilkie synthesises theories and principles of comedy with practical tips, and re-evaluates the ways in which these ideas can be used by the performer. Most importantly, these skills – timing, focus, awareness – are teachable rather than being innate talents. Exercises, interviews and guides to further resources enhance this comprehensive exploration of comic acting.

This book is a printed edition of the Special Issue "Road Vehicles Surroundings Supervision: On-Board Sensors and Communications" that was published in Applied Sciences

There is much to contemplate as you cycle through this area in the south-central part of France, not to mention the exceptional scenery. The stories and legends seem as endless as the rolling French roads decorated by countless villages. The architecture in these 5 departments is amazing. Examples are the Cité de Carcassonne and the Ste-Cécile Cathédrale in Albi. This guidebook focuses on 18 cycling routes around Carcassonne, Albi and Foix. There are 51 remarks on villages, a canal, rivers and points of interest. Included with each route is the latest method for listing Waypoints that locates its longitude and latitude in degrees, minutes and seconds, and in digital format. Basic data are included on selecting a community and a gîte, bringing your bike or renting, having a vehicle, driving in France, what to bring, and buying groceries. As with all other BICYCLE YOUR FRANCE guidebooks, this

guide also offers a companion, QUEUE SHEETS, with just the Waypoint GPS located listings, route maps and elevation profiles. Details: 114 pages; 11" x 8.5"; English; 17 two-page and 1 single-page color route maps; 19 town maps and descriptive graphics; 188 color photographs. In addition to the print format, this guidebook and the Queue Sheets are available for Kindle devices and in the Adobe Digital Editions for Apple iPad devices. Route maps graphics and photographs are presented in two halves in 800x1260 pixels appropriate for the 7" and 8.9" Kindle Fire HD.

Singapore's best homegrown car magazine, with an editorial dream team driving it. We fuel the need for speed!

This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.
