Whether you're a digital or a film photographer, you can learn to leverage today's technologies to create masterful prints of your work, and this unique book is devoted exclusively to teaching you how. In it, renowned photographer, educator, and author Jeff Schewe presents targeted chapters on digital printing from Lightroom and Photoshop and shares his expert techniques for optimal output and fine-art reproduction. A companion to *The Digital Negative: Raw Image Processing in Lightroom, Camera Raw, and Photoshop*, this book teaches you how to take your already perfected images and optimize them for the highest quality final printing. Jeff teaches you about printer types and principles of color management so you get the results you expect. He also shares his strategies on proofing, sharpening, resolution, black-and-white conversion, and workflow, as well as on identifying the attributes that define a perfect print. Learn techniques for optimizing your images for printing Discover how color management can work for you instead of against you Develop an eye for the perfected print

A guide to viewing stars, the moon, planets, meteors, comets, and aurora through binoculars. Features a foreword by renowned astronomer and writer David Levy. Includes a complete guide to current binocular brands and models and explains what to look for in each season.

Here is a an overview of the exceptional work produced and championed by over fifty of the leading illustrators, printmakers and designers from the sphere of independent, print-based design. People of Print is split into three sections: Part 1 features essays by journalist Andrew Losowsky; Danielle Pender, curator at KK Outlet; and Lawrence Zeegen, Profess29or of Illustration at University of the Arts London. It includes interviews with Heretic, a London-based illustration and screen-printing studio, and Jeremy Leslie, Creative Director at magCulture; and a site visit to St Cuthberts Mill, a paper manufacturer in Somerset. Part 2 consists of profiles on such creatives as Brazilian illustrators Bicicleta Sem Freio, Melbourne-based screen-printers Dangerfork, Portland-based letterpress KeeganMeegan & Co., and New York-based design firm Sagmeister & Walsh. Part 3, the Directory, lists a wide selection of print-based websites.

The number of Christian women in today's professional workforce is increasing, and they are hungry for practical mentoring. They yearn to learn from someone who has climbed the ladder of success without sacrificing family or faith—something author Diane Paddison has done with excellence and grace. The stories Paddison shares about her corporate, personal, and spiritual life, as well as the lives of other women like her, are both inspiring and instructive, providing on-target advice and concrete examples of how to succeed without feeling overwhelmed or compromised. This is a working book for working women. Full of practical, proven guidance that is both professionally viable and biblically sound, each chapter includes sidebars featuring pertinent facts from current research, resources relevant to the chapter's topic, action-oriented "to do" lists, and other interactive material. Chapters also include questions suitable for discussion, making it an excellent resource for use in small groups. Work, Love, Pray is a valuable resource for professional Christian women, but it's also a must read for the husbands, sisters, daughters, and friends who share their lives.

Times have changed and the rules have changed, but financial security is still the goal. Do you know how to get there? There is a new reality out there—a new normal. What was once certain—that you would be able to retire comfortably, that you would pay for your kids' education, that your home would appreciate in value—is no longer a sure thing. So much has changed on the financial landscape that it's hard to know which moves are the right ones to make. Suze Orman's million-copy bestselling financial action

This comprehensive guide provides diet and feeding recommendations for both healthy and sick animals. Recommendations are based on a physical and nutritional assessment of the patient, and the wishes and abilities of clients. Suggested dietary interventions are assessed based on indications, possible adverse reactions, contradictions, and ongoing evaluation.

Nina Raine's Tiger Country is a hospital play that follows a tangle of doctors and nurses in a busy London hospital - from the award-winning author of Tribes. Professionalism and prejudice, turbulent staff romances, ambition and failure collide in this swirling, action-packed drama about an overburdened health service that we all depend on and the dedicated individuals that keep it going. 'Tiger country' is where animal instinct stirs and an irrefutable eye opens. Where we make eye contact with the unknown. Tiger Country was premiered at Hampstead Theatre in 2011 and, following its sell-out run, was revived there in 2014.

"What a fantastic book! It's about color management for photographers. Sam explains why color management is essential for achieving accurate colors in photos and how to go about it. Neither in my printing technology lectures nor on the Internet have I found this topic explained as well as it is here. In fact, I found that after an enjoyable hour reading, I had learned quite a lot, and gained a far deeper understanding of the topic. If you don't believe that Sam can put across this rather dry material with a smile in his eye, then just turn to page 15." Birgit Engelhardt Photographer and enthusiastic reader of this book

This book has the largest collection of drugless, natural, home remedies available anywhere. It provides you with information on more than twice as many diseases (over 730) and far more natural remedies (over 11,000) than any other book. It is urgently needed in your home and will help you for many years to come.

Shooting in the raw format gives digital photographers complete control over every aspect of image quality. The Digital Negative is devoted exclusively to the topic and shows you how to make the most of that control to extract the best-possible raw rendering of your digital negatives and to use Photoshop to achieve the highest quality in your images. In this update of his best-selling book, renowned photographer and author Jeff Schewe outlines a foolproof process for working with these digital negatives and presents his real-world expertise on optimizing raw images. You'll learn hands-on techniques for exposing and shooting for raw image capture and developing a raw processing workflow, as well as Photoshop techniques for perfecting the master image, converting color to black and white, and processing for panoramic and HDR images. This second edition covers all the major updates and new features in Camera Raw, Lightroom, and Photoshop, such as GPU acceleration, Radial Filters, Pano Merge, and more. Get the best tone and color from your digital negatives. Use Lightroom and Camera Raw sharpening controls to maximize image quality. Produce stunning black and white images. Learn how to remove people from photos in Photoshop using Smart Objects and Layer Blending. Use HDR in Camera Raw and Lightroom. And much more! Visit the book's companion website at TheDigitalNegativeBook.com for sample images and more.
