Aciman begins his memoir in the recent past, with a visit to Great-uncle Vili, the first of the family to emigrate. The octogenarian had achieved his goal of becoming a genteel—and gentle— Englishman: Because of his service to the British during WW II—all the while remaining faithful to Italian Fascism—he was granted a country estate in Surrey, where he lived out his life as Dr. H.M. Spingarn.

From one of our most preeminent writers, a tale that captures the shifting meanings of the past, and how our experience colors those meanings. Lloyd Wilkinson Petrie, one of the seven elderly trustees of the now defunct (for thirty-four years) Temple Academy for Boys, is preparing a memoir of his days at the school, intertwined with the troubling distractions of present events. As he navigates, with faltering recall, between the subtle anti-Semitism that pervaded the school's ethos and his fascination with his own family's heritage--in particular, his illustrious cousin, the renowned archaeologist Sir William Matthew Flinders Petrie--he reconstructs the passions of a childhood encounter with the oddly named Ben-Zion Elefantin, a mystifying older pupil who claims descent from Egypt's Elephantine Island. From this seed emerges one of Cynthia Ozick's most wondrous tales, touched by unsettling irony and the elusive flavor of a Kafka parable, and weaving, in her own distinctive voice, myth and mania, history and illusion.

From a gifted young writer, the story of his quest to reclaim his family's apartment building in Poland--and of the astonishing entanglement with Nazi treasure hunters that follows Menachem Kaiser's brilliantly told story, woven from improbable events and profound revelations, is set in motion when the author takes up his Holocaust-survivor grandfather's former battle to reclaim the family's apartment building in Sosnowiec, Poland. Soon, he is on a circuitous path to encounters with the long-time residents of the building, and with a Polish lawyer known as "The Killer." A surprise discovery--that his grandfather's cousin not only survived the war, but wrote a secret memoir while a slave laborer in a vast, secret Nazi tunnel complex--leads to Kaiser being adopted as a virtual celebrity by a band of Silesian treasure seekers who revere the memoir as the indispensable guidebook to Nazi plunder. Propelled by rich original research, Kaiser immerses readers in profound questions that reach far beyond his personal quest. What does it mean to seize your own legacy? Can reclaimed property repair rifts among the living? Plunder is both a deeply immersive adventure story and an irreverent, daring interrogation of inheritance--material, spiritual, familial, and emotional.

From one of the most important intellectuals of our time comes an extraordinary story of exile and a celebration of an irrecoverable past. A fatal medical diagnosis in 1991 convinced Edward Said that he should leave a record of where he was born and spent his childhood, and so with this memoir he rediscovers the lost Arab world of his early years in Palestine, Lebanon, and Egypt. Said writes with great passion and wit about his family and his friends from his birthplace in Jerusalem, schools in Cairo, and summers in the mountains above Beirut, to boarding school and college in the United States, revealing an unimaginable world of rich, colorful characters and exotic eastern landscapes. Underscoring all is the confusion of identity the young Said experienced as he came to terms with the dissonance of being an American citizen, a Christian and a Palestinian, and, ultimately, an outsider. Richly detailed, moving, often profound, Out of Place depicts a young man's coming of age and the genesis of a great modern thinker.

"For Solo Violin is a gracefully written, elegiac memoir of childhood."--The Los Angeles Times "An eloquent tribute to [and] a moving account of those who, despite the cruelty of so many around them, found ways to rejoice and trust in the kindness of a few. One is instantly reminded of Life Is Beautiful."--André Aciman, author of Out of Egypt In an extraordinary literary debut, Aldo Zargani reconstructs the lost world of his Jewish childhood during the perilous years 1938-45 when he and his family fled from Fascists and Nazis in northern Italy. His haunting memoir acquires a cinematic intensity as he crosscuts from the blood-red stone spires of Basel, where his father failed to find refuge for his family in 1939, to fiery scenes of the Allied bombing of Turin in 1942, to the freezing winter of 1943-44, which Zargani and his brother spent hidden in a Catholic boarding school deep in the countryside. For Solo Violin is filled with colorful portraits of Italian aristocrats and peasants, priests and soldiers, teachers and students, informers and partisans. At its heart is Zargani's vivid depiction of his father, a concert violinist forced to give up his career when the Fascists came to power. In this time of persecution, the Zargani family survived through their own resourcefulness and through the efforts of the many Italians who came to their aid, from the young doctor who helped them escape from Turin to the shepherd who supplied them with milk during the last year of the war, when they lived among the partisans in a remote Piedmont valley. Looking back over a distance of fifty years, Zargani rediscovers the enchantment of childhood shining in "fable-like constellations" even amidst the inferno of war. Lullabies and school games, fairy tales and family jokes are interwoven with the events of terror and oppression. Lyrical, humorous, tender, and wise, For Solo Violin is a testament to resilience and hope during the darkest period in human history. "A broad panorama of Italian-Jewish history in [the last] century. Elegant in its style and, however tragic, also rich with understatement, irony, and wit, For Solo Violin counts among the great, enduring works of art."--Focus Magazine, Germany "A tragic, deeply engaging, delicious book--yes delicious, too. (Reading it makes you smile.) It's a miracle...It makes one think of the wit of Kafka!"--L'Espresso, Italy "Zargani depicts a wealth of sad, despairing, but often also incredibly funny episodes...But vibrating along with the humor is always the sense of threat, and behind it opens the abyss of terror."--Neue Zürcher Zeitung, Switzerland

When Rome defeated the forces of Antony and Cleopatra and annexed Egypt, the rule of the longest-lived of the Hellenistic dynasties and one of the most illustrious in Egyptian history came to an end. For nearly two hundred years, the Macedonian dynasty known as the Ptolemaic had controlled Egypt and its mixed population of Egyptians, Greeks, Macedonians, and Jews. The founder of this dynasty, Ptolemy I (367-283/2 BC), was a boyhood friend and eventually personal bodyguard of Alexander the Great, who fought alongside Alexander in the epic battles that toppled the Persian Empire, and brought about a Macedonian Empire stretching from Greece to India. After Alexander's death, his senior staff carved up his vast empire, with Ptolemy gaining control of Egypt. There he built up his power base in Egypt, introduced administrative and economic reforms that made his family fabulously wealthy, and by extending Egypt's possessions overseas founded an Egyptian Empire. In addition to his political and military prowess, Ptolemy was an intellectual, who patronized the mathematician Euclid, wrote an important account of Alexander's campaign in Asia, and established the famous Library and Museum at Alexandria, which were the cultural heart of the entire Hellenistic Age. Ptolemy ruled Egypt until he died of natural causes in his early eighties. Ian Worthington's Ptolemy I--the first full-length biography of its kind in English--traces the life of Ptolemy from his boyhood to his reign as king and pharaoh of Egypt. Throughout, he highlights the achievements that profoundly shaped both Egypt's history and that of the early Hellenistic world. He argues that Ptolemy was by far the greatest of Alexander's Successors, and that he was a conscious imperialist who even boldly attempted to seize Greece and Macedonia, and be a second Alexander.

Hunger for Memory is the story of Mexican-American Richard Rodriguez, who begins his schooling in Sacramento, California, knowing just 50 words of English, and concludes his university studies in the stately quiet of the reading room of the British Museum. Here is the poignant journey of a "minority student" who pays the cost of his social assimilation and academic success with a painful alienation – from his past, his parents, his culture – and so describes the high price of "making it" in middle-class America. Provocative in its positions on affirmative action and bilingual education, Hunger for Memory is a powerful political statement, a profound study of the importance of language ... and the moving, intimate portrait of a boy struggling to become a man.
