The most recent high-profile advocate for Americans with disabilities, actor Christopher Reeve, has highlighted for the public the economic and social costs of disability and the importance of rehabilitation. Enabling America is a major analysis of the field of rehabilitation science and engineering. The book explains how to achieve recognition for this evolving field of study, how to set priorities, and how to improve the organization and administration of the numerous federal research programs in this area. The committee introduces the "enabling-disability process" model, which enhances the concepts of disability and rehabilitation, and reviews what is known and what research priorities are emerging in the areas of: Pathology and impairment, including differences between children and adults. Functional limitations--in a person's ability to eat or walk, for example. Disability as the interaction between a person's pathologies, impairments, and functional limitations and the surrounding physical and social environments. This landmark volume will be of special interest to anyone involved in rehabilitation science and engineering: federal policymakers, rehabilitation practitioners and administrators, researchers, and advocates for persons with disabilities.

Substantially rewritten to focus on inquiry teaching and learning as espoused in the National Science Education Standards, the new edition of Science in Elementary Education: Methods, Concepts, and Inquiries will prepare pre-service teachers to plan, facilitate, adapt, and assess inquiry experiences consistent with today's science classroom. It accomplishes this by implementing the 6E model of inquiry teaching, addressing the planning and needs of inquiry teaching classrooms, and describing the materials teachers

need to get up and running. This practical text includes over 350 Teaching Tips throughout and Twelve Inquiry Units that model constructivist applications, build conceptual knowledge, and provide a bank of classroom-tested lessons to use in science classrooms.
