photography throughout. And as the most up-to-date smart book on today's scene.

Consumer guides & advice.

This book covers the full history of the Porsche 928, looking at the variants sold on the domestic, American, British, Australian and Japanese markets, from the time the car was launched in 1977 until the last one was built in 1995.

This book focuses solely on the cars derived from the classic Mini. Small GTs, sports cars, roadsters and fun cars: Mini-derivatives that changed the specialist motoring market completely in the early sixties, and new designs kept it busy for nearly four decades. from the well known Mini Marcos and Unipower GT that raced at Le Mans, to the very obscure but as exciting Coldwell GT or Sarcon Scarab, almost 60 cars are thoroughly researched, described and photographed in this book.

Road & motor vehicles: general interest.

Simple, cost-effective, basic and reliable tips to ensure any rally car stands a chance of reaching the finishing line. If you are planning a road-based rally, don't even think of leaving home before reading this book and implementing the tried and tested mods it describes so well.

This new book examines how Austin bounced back after WWII, and how, despite the severe materials shortage, it managed to develop the largest range of vehicles produced by any automaker in postwar Britain. It examines how these vehicles were received and used in these markets, and is illustrated with rare archive photography depicting the weird, wonderful and the downright imaginative.

This book details the origin and racing history of the Ferrari 333 SP. Uniquely, none of the 333 SP models were entered into races by Ferrari itself. The cars were built specifically for customer use; a purchase price of \$900,000 included two spare engines and race technical support supplied by Ferrari engineers. A total of 40 cars were built; the first four by Ferrari, the remainder manufactured by Dallara & Michellotto using Ferrari engines. All of the cars were sold to, and race entries made by, privateer teams. From 1994, the cars contested the IMSA World Sports Car Championship, the United States Road Racing Championship, and the American Le Mans Series, at circuits throughout North America. In 1997, the cars also featured in the Europe-based International Sports Racing Series, as well as the 24 Hours of Le Mans. Two years later, the Doran-Lista team installed a Judd V10 engine into its 333 SP, with the aim of increasing power and improving fuel efficiency. In all, from the 126 races entered, 47 victories were claimed by the 333 SP.

The most famous racing drivers drove it, and, for a long time, it was a guaranteed winner for Porsche: Now, finally, the first comprehensive work about the 908 has been published in the English language. The authors portray the fascinating history of the Porsche 908 racing car, and clearly explain its complex technology. Racing history is fully documented, and detailed statistics enable the reader to quickly look up all of the racing data. In addition, there are little-known anecdotes and contemporary reports from eye-witnesses and drivers. A wealth of contemporary, previously unreleased images evoke the fascinating atmosphere and excitement of the great seventies racing era.
