"Committed to a psych ward against her will, Naomi Carradine knows there's been a huge mistake. But it's no use explaining the shocking and sensational events leading up to her confinement. When she tells others what she has witnessed, no one believes her, or remotely understands the extreme highs and lows she's experienced. Even her childhood sweetheart Lachlan seems to think Naomi is losing her mind and begins to pull away. With everyone convinced she's insane, and finding herself haunted by demons both real and imagined, Naomi starts to worry they may be right. With the help of a sensitive new psychiatrist, Naomi must face a traumatic past that may have fractured her reality ... and discover that even the purest of souls have darkness in them"--

Each of us has a special purpose in life—do you know what yours is? In Heroic Living, best-selling author and former investment banker Chris Lowney combines the proven practices of Ignatian spirituality with his business expertise to help each of us discover our mighty purpose in life and develop a personal life strategy to achieve it. By merging Ignatian Spirituality with astute business knowledge, Lowney provides the tools and strategies needed to make practical, long-term life changes that move us away from our fractured, compartmentalized lives and toward the satisfaction and wholeness that each of us desires so deeply.

Barbara Johnson's approach to life is positive, uplifting, theraputic, and fun. But Barbara is far from being a cockeyed optimist, blind to life's grief and disappointment. In fact, her entire ministry of joy and encouragement began in the "slimy cesspool" of her own pain. And that's why her laughter is so infectious and her wisdom rings so true in this joy-giving book, which offers giggles and guidance to help you: shore up sinking self-esteem reach the other side of your grief weather your stress and get rid of your guilt restore the joys of motherhood sustain an effective prayer life make peace with aging and go for healthy maturity "Almost everyone needs a splash of joy to get through the mess, to get cleaned off and get sweetened up, refreshed and ready to go again," Barbara Johnson says. With short chapters intended to be read in one sitting-plus a collection of quips and quotes at the close of each chapter-Splashes of Joy offers invigorating encouragement and a gentle reminder to spread joy into the lives of others as well. Splashes of Joy is now available in value-priced paperback as part of the "Nelson Values" program -- a one-time-only, one-order-only bargain price (\$7.97) on some of our best-selling and most exciting titles!

Programming WCF Services is the authoritative, bestselling guide to Microsoft ' s unified platform for developing modern, service-oriented applications on Windows. Hailed as the definitive treatment of WCF, this guide provides unique insight, rather than documentation, to help you learn the topics and skills you need for building maintainable, extensible, and reusable WCF-based applications. Authors Juval Löwy—one of the world ' s top .NET experts—and Michael Montgomery have revised this edition to include the productivity-enhancing features of .NET Framework 4.6, along with the latest WCF ideas and techniques. By teaching you the why and the how of WCF programming, this book will help you master WCF and make you a better software engineer. Learn WCF ' s architecture and essential building blocks, including key concepts such as reliability and transport sessions Use built-in features such as service contracts, instance and concurrency management, transactions, queued services, and security Increase the quality of your WCF services by using design options, tips, and best practices in Löwy ' s ServiceModelEx framework Understand the rationale behind particular design decisions, and rarely understood aspects of WCF development Learn why Azure Service Fabric is the killer app for modern DevOps

Walking to Hollywood is a dazzling triptych - obsessive, satirical, elegiac - in which Will Self burrows down through the intersections of time, place and psyche to explore some of our deepest fears and anxieties with characteristic fearlessness and jagged humour. 'Very Little' is ostensibly the account of a curative journey to Canada and the USA, but in fact the record of a nematode's progress, as the worm of obsession - with scale and packing and the 'stuff' of our lives - bores through a mind in extremis. 'Walking to Hollywood' is an extreme satire on celebrity, in which the narrator believes that everyone he meets is played by a famous actor, and that only he can solve the mystery of who murdered the movies. 'Spurn Head' leads Self to a tormented sojourn with a madman whose house is sliding over the edge of a cliff, to a game of checkers with Death, and finally to an encounter with one of Swift's immortal Struldbruggs and a march through a tear in time itself. In Walking to Hollywood Will Self pushes memoir to the limits of invention.

How can we create and sustain professional learning programs that actually lead to improved student achievement? In this thoughtful and informative guide for teachers, administrators, and policymakers, Douglas B. Reeves provides answers. First he casts a critical eye on professional learning that is inconsistent, unfocused, and ultimately ineffective, and explains why elaborate planning documents and "brand-name" programs are not enough to achieve desired outcomes. Then he outlines how educators at all levels can improve this situation by * Taking specific steps to move from vision to implementation; * Focusing on four essentials: teaching, curriculum, assessment, and leadership; * Making action research work; * Moving beyond the "train the trainer" model; and * Using performance assessment systems for teachers and administrators. If you're tired of professional development that takes up too much time and delivers too little, read Transforming Professional Development into Student Results and discover how to move toward a system that gives educators the learning experiences they need to make a measurable difference for their schools and their students.

Mari F. Wiener skillfully integrates the history of medicine with social and intellectual history in this study of how race and sex complicated medical treatment in the antebellum South. Sex, Sickness, and Slavery argues that Southern physicians' scientific training and practice uniquely entitled them to formulate medical justification for the imbalanced racial hierarchies of the period. Challenged with both helping to preserve the slave system (by acknowledging and preserving clear distinctions of race and sex) and enhancing their own authority (with correct medical diagnoses and effective treatment), doctors sought to understand bodies that did not necessarily fit into neat dichotomies or agree with suggested treatments. Focusing on Southern states from Virginia to Alabama, Weiner examines medical and lay perspectives on the body through a range of sources, including medical journals, notes, diaries, daybooks, and letters. These personal and revealing sources show how physicians, medical students, and patients--both free whites and slaves--felt about vulnerability to disease and mental illnesses, how bodily differences between races and sexes were explained, and how emotions, common sense, working conditions, and climate were understood to have an effect on the body. Physicians' authority did not go uncontested, however. Weiner also describes the ways in which laypeople, both black and white, resisted medical authority, clearly refusing to cede explanatory power to doctors without measuring medical views against their own bodily experiences or personal beliefs. Expertly drawing the dynamic tensions during this period in which Southern culture and the demands of slavery often trumped science, Weiner explores how doctors struggled with contradictions as medicine became a key arena for debate over the meanings of male and female, sick and well, black and white, North and South.
