"The First Calvary Division came under surprise attack in Sadr City on Sunday, April 4, 2004. More than seven thousand miles away, their families awaited the news for forty-eight hellish hours -- expecting the worst. In this powerful, unflinching account, Martha Raddatz takes readers from the streets of Baghdad to the home front and tells the story of that horrific day through the eyes of the courageous American men and women who lived it." -- Back cover.

The world ' s second-wealthiest country, Japan once seemed poised to overtake America. But its failure to recover from the economic collapse of the early 1990s was unprecedented, and today it confronts an array of disturbing social trends. Japan has the highest suicide rate and lowest birthrate of all industrialized countries, and a rising incidence of untreated cases of depression. Equally as troubling are the more than one million young men who shut themselves in their rooms, withdrawing from society, and the growing numbers of " parasite singles, " the name given to single women who refuse to leave home, marry, or bear children. In *Shutting Out the Sun*, Michael Zielenziger argues that Japan ' s rigid, tradition-steeped society, its aversion to change, and its distrust of individuality and the expression of self are stifling economic revival, political reform, and social evolution. Giving a human face to the country ' s malaise, Zielenziger explains how these constraints have driven intelligent, creative young men to become modern-day hermits. At the same time, young women, better educated than their mothers and earning high salaries, are rejecting the traditional path to marriage and motherhood, preferring to spend their money on luxury goods and travel. Smart, unconventional, and politically controversial, *Shutting Out the Sun* is a bold explanation of Japan ' s stagnation and its implications for the rest of the world.

This moving and poignant work gives the reader a rare insight into the contented ' milk and honey ' life of a simple Afghan family before the civil war ripped their country apart. The lives and centuries-old livelihood of farmers, craftsmen and small business owners were destroyed in just weeks and months. As a member of the Hazara tribe, hated and targeted by the Taliban, Najaf was forced to flee the brutal attacks on his people when the Northern Alliance fell to the advancing Taliban insurgents. His flight to Pakistan, from there to Indonesia, then by boat to Australia, ends with incarceration in Woomera, where the story begins. From the compelling opening sentence to the beautiful final chapter, Najaf ' s integrity, his extraordinary optimism and his generosity of spirit will win the hearts and minds of all readers.

When we think of serial killing, we tend to think of it as a perversion of contemporary society. *The Human Predator* makes an eye-opening case for the existence of serial killers throughout time—the motives and methods, the societies that spawned them, and the historical periods in which they lived . . . and killed. From Ancient Rome and the Dark Ages to the open roads of America, from the exploits of French religious zealot Gilles de Rais to such high-profile monsters as Jeffrey Dahmer and Aileen Wuornos, Katherine Ramsland offers a complete chronological record of the serial-killer phenomenon—and the parallel development of psychology, forensic science, and FBI profiling in the serial killer ' s evolving manifestation throughout human history. **INCLUDES PHOTOGRAPHS**
