Generally, bed-wetting before age 7 isn't a concern. At this age, your child may still be developing nighttime bladder control. If bed-wetting continues, treat the problem with patience and understanding. Lifestyle changes, bladder training, moisture alarms and sometimes medication may help reduce bed-wetting.

Bed-wetting - Symptoms and causes - Mayo Clinic

TheraPee is a combination of a very advanced bedwetting alarm together with online software that resembles Dr. Sagi’s face-to-face bedwetting treatment. The average program lasts 3 [to](#) 5 months and we get more than 90% success rate in this time frame.

This best-selling book is an easy-to-read guide for parents, using the latest thinking from the fields of positive psychology, NLP and hypnotherapy to help children overcome bedwetting more easily. The seven-day programme also comes with downloadable hypnotic audio recording [Dry Beds Now!](#), which is filled with positive suggestions to make changing this unwanted habit easier. This fully revised and updated edition includes improvements to the system, thanks to years of results and research from parents, GPs and Consultant Paediatricians. In surveys over 70% of children achieved dry nights following this system, and 85% of parents would recommend this system to others.

A step-by-step program for curing bedwetting, with separate sections for parent and child.

A step-by-step program for curing bedwetting, with separate sections for parent and child.

Proven, practical advice for treating and preventing potty problems.

More than 750,000 children in the UK wet their beds at night accidentally. The problem occurs on most nights in 15% of five year olds and in 3% of 15 year olds. Alicia, who has been helping parents and their children conquer this habit for years, has written an easy-to-read seven-day guide on how to do this. The book uses the latest thinking from the fields of positive psychology, NLP and hypnotherapy.It is the second edition of what has already proved to be an extremely popular title, with nearly 20 success testimonials from parents on Amazon, including the following:‘We’re so grateful for this book... In 18 months on our son has not had any accidents since completing the programme. It did stop. This works!’This book is fantastic. It is easy to read and the instructions are simple to follow - just what you need when you have suffered the horrendous problem of bedwetting. Alicia Eaton has great insight into the problems people endure and reading her words alone are a comfort!The book explores and explains the issue of bedwetting and guides readers clearly through each step. ‘Once these steps are established, there’s no looking back [to](#) you!’I have dry nights forever!’ says author Alicia.

Wouldn’t it be fantastic if you could simply wave a magic wand to get kids to do what you wanted? Too many parents, and teachers for that matter, struggle to get their requests heard, understood and taken seriously [to](#) kids just don’t seem to be able to do as they’re told nowadays. In Words that Work: How to Get Kids to Do Almost Anything, author Alicia Eaton, a leading Harley Street Hypnotherapist & Advanced NLP Practitioner, explains how much easier it is to get children to co-operate, simply by changing the vocabulary and structure of your sentences. She shows how powerful words are if you know about the NLP [language](#) of persuasion and influence’. And also shares the secret to slipping [to](#) hypnotic influence’ into day-to-day conversations. Originally a Montessori teacher and a mother to three, now grown-up children, Alicia’s combined all her skills, knowledge and expert training to create this unique parenting system that really works. So whether the issue is mealtime arguments over fussy eating or junk food cravings; an anxiety or phobia about dogs, spiders, going to school or exams; a lack of confidence; bad habits such as nail-biting, thumbsucking or bedwetting, you’ll quickly learn what to say and what not to say. You’ll be able to put an end to the nagging and yelling that gets you nowhere and wears you out; reward systems and star charts that quickly lose their appeal; bribery and punishments that achieve nothing and make everyone feel bad. Parents who appear to have well-behaved, happy, high achieving kids are not just plain [to](#) lucky’ - quite simply, they’re handling things differently and with a bit of inside knowledge, you can too.

Soothe your child’s anxiety and help them to develop emotional resilience for the future. The number of children suffering from anxiety is on the rise and most parents will readily admit that they feel ill prepared and lost for words when it comes to supporting their child’s emotional wellbeing. Author Alicia Eaton is a Harley Street practitioner with over 15 years’ experience of helping children to feel more confident and overcome feelings of anxiety. As she explains, nearly all children will sustain bumps and bruises on the outside of their body so it’s only natural that they’ll also pick up a few on the inside, in the form of anxiety and worries. Learning how to tackle these quickly, stops them from turning into much bigger problems later. Whether your child has a fear of dogs, spiders, dentists or injections, struggles with school, performing on stage or sleeping at night, this book will teach you the simple solutions every parent needs to know. When your child feels happy, you’ll feel happier too.

Bedwetting is an irritation for parents, but a nightmare for their children. Up to 20% of youngsters beyond the age where they’re supposed to no longer need nappies, still wet their beds, or suffer leakage during the day. Bedwetting children tend to be withdrawn from their friends, often ridiculed at kindergarten, or school, and socially isolated when it comes to sleepovers. Now, two world-ranking pelvic floor doctors have discovered a cure for bedwetting that: Involves NO pills or medicines Costs NOTHING Can be done at home Needs NO expensive visit to a doctor or specialist Is totally safe, effective in 86% of all cases, and works within a few weeks Needs NO expensive equipment or monitoring systems Cutting-edge medical research has proven that bedwetting has NOTHING to do with a child’s laziness, full-bladder, deep sleep, or inattention. Bedwetting and daytime leakage are due to under-exercised muscles and loose ligaments in a child’s pelvic floor. Strengthen these through simple exercises (which we’ve turned into games kids will love playing) and the problem goes away. END BEDWETTING NOW is a simple easy-to-follow guide for parents and grandparents to give their children a happy, and fulfilled life. END BEDWETTING NOW is a simple easy-to-follow guide for parents and grandparents to give their children a happy, and fulfilled life.

An easy-to-read guide for parents, using the latest thinking from the fields of positive psychology, NLP, and hypnotherapy to help children overcome bedwetting in just a few days, this edition comes with a free downloadable recording for children that is filled with positive suggestions to help them change their habits.

Every now and then there is a book that is so different, so remarkable that it stands out from the crowd. This is such a book. The Joy of Bedwetting is a loving and irreverent trip into the world of the bedwetter and those who do so by choice and for pleasure. Not the guilt-trip and depths of shame for these bedwetters! These are those who relish the pleasure, the sight and smells of the soaked bed and mattress and who are proud of it. Touching on topics such as real statistics of the incredible frequency of bedwetting in teens and adults, it also offers helpful hints and suggestions on reverting back to that most childish state of night-time experience: uncontrolled bedwetting. Be Proud. Be Wet.
