Arguing that today's dynamic business environments have irrevocably transformed the employer-employee relationship, a guide for managers outlines win-win strategies that promote trust between workers and management through flexible, alliance-based working agreements. 100,000 first printing.

The New York Times Bestselling guide for managers and executives. Introducing the new, realistic loyalty pact between employer and employee. The employer-employee relationship is broken, and managers face a seemingly impossible dilemma: the old model of guaranteed long-term employment no longer works in a business environment defined by continuous change, but neither does a system in which every employee acts like a free agent. The solution? Stop thinking of employees as either family or as free agents. Think of them instead as allies. As a manager you want your employees to help transform the company for the future. And your employees want the company to help transform their careers for the long term. But this win-win scenario will happen only if both sides trust each other enough to commit to mutual investment and mutual benefit. Sadly, trust in the business world is hovering at an all-time low. We can rebuild that lost trust with straight talk that recognizes the realities of the modern economy. So, paradoxically, the alliance begins with managers acknowledging that great employees might leave the company, and with employees being honest about their own career aspirations. By putting this new alliance at the heart of your talent management strategy, you'll not only bring back trust, you'll be able to recruit and retain the entrepreneurial individuals you need to adapt to a fast-changing world. These individuals, flexible, creative, and with a bias toward action, thrive when they're on a specific "tour of duty"—when they have a mission that's mutually beneficial to employee and company that can be completed in a realistic period of time. Coauthored by the founder of LinkedIn, this bold but practical guide for managers and executives will give you the tools you

need to recruit, manage, and retain the kind of employees who will make your company thrive in today's world of constant innovation and fast-paced change.

* Our summary is short, simple and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. By reading this summary, you will discover a new management model based on a respectful and balanced relationship between employer and employee. You will also discover how : establish a win-win relationship between employer and employee based on trust and alignment of values ; recruit better profiles through transparency and shared values; become a company that listens to its employees and is open to the outside world; to build a rich career thanks to evolutionary missions; take advantage of the professional network of current and former employees. Today, we no longer work as we did fifty years ago. Employees no longer spend their entire career in the same company and they are also increasingly vulnerable because of short-term economic issues. However, the status of self-employed worker is not the solution, given its precariousness. To maintain employment, a new type of relationship must be developed: the alliance between employer and employee. This new "win-win" contract is based on mutual trust and benefits both the employee and the company. *Buy now the summary of this book for the modest price of a cup of coffee!

A blueprint for thriving in your job and building a career by applying the lessons of Silicon Valley's most innovative entrepreneurs. LinkedIn cofounder and chairman Reid Hoffman and author Ben Casnocha show how to accelerate your career in today's competitive world. The key is to manage your career as if it were a start-up business: a living, breathing, growing start-up of you. Why? Start-ups—and the entrepreneurs who run them—are nimble. They invest in themselves. They build their professional networks. They take intelligent risks. They make uncertainty and volatility work to their advantage. These are the very same skills professionals need to get ahead today. This book isn't about cover letters or resumes. Instead, you will learn the best practices of Silicon Valley start-ups, and how to apply these entrepreneurial strategies to your career. Whether you work for a giant multinational corporation, a small local business, or launching your own venture, you need to know how to: * Adapt your career plans as you change, the people around you change, and industries change. * Develop a competitive advantage to win the best jobs and opportunities. * Strengthen your professional network by building powerful alliances and maintaining a diverse mix of relationships. * Find the unique breakout opportunities that massively accelerate career growth. * Take proactive risks to become more resilient to industry tsunamis. * Tap your network for information and intelligence that help you make smarter decisions. A revolutionary new guide to thriving in today's fractured world of work, the strategies in this book will help you survive and thrive and achieve your boldest professional ambitions. The Start-Up of You empowers you to become the CEO of your career and take control of your future.

A 30 day workbook for turning words into actions and actions into results Imagine 2 scenarios. In the first one you have just finished reading The Alliance. It was a great book and you remember that it mentioned a lot of smart things. But you can't remember much of it now as you close the book. In the second scenario you have just finished the same book. The difference now is that you have a plan for how to implement this new knowledge to improve your life. Most people will find themselves in scenario one. We believe that reading is an investment. You spend time with a book because you hope that it will make you happier, healthier, wealthier or smarter. But simply just reading a great book is not enough. You have to take action! This workbook helps you do just that and makes it easier for you to make real

changes from the books you read.

Foreword by Bill Gates LinkedIn cofounder, legendary investor, and host of the award-winning Masters of Scale podcast reveals the secret to starting and scaling massively valuable companies. What entrepreneur or founder doesn't aspire to build the next Amazon, Facebook, or Airbnb? Yet those who actually manage to do so are exceedingly rare. So what separates the startups that get disrupted and disappear from the ones who grow to become global giants? The secret is blitzscaling: a set of techniques for scaling up at a dizzying pace that blows competitors out of the water. The objective of Blitzscaling is not to go from zero to one, but from one to one billion –as quickly as possible. When growing at a breakneck pace, getting to next level requires very different strategies from those that got you to where you are today. In a book inspired by their popular class at Stanford Business School, Hoffman and Yeh reveal how to navigate the necessary shifts and weather the unique challenges that arise at each stage of a company's life cycle, such as: how to design business models for igniting and sustaining relentless growth; strategies for hiring and managing; how the role of the founder and company culture must evolve as the business matures, and more. Whether your business has ten employees or ten thousand, Blitzscaling is the essential playbook for winning in a world where speed is the only competitive advantage that matters.

During the last decade, platform businesses such as Uber, Airbnb, Amazon and eBay have been taking over the world. In almost every sector, traditional businesses are under attack from digital disrupters that are effectively harnessing the power of communities. But what exactly is a platform business and why is it different? In Platform Strategy, Laure Claire Reillier and Benoit Reillier provide a practical guide for students, digital entrepreneurs and executives to understand what platforms are, how they work and how you can build one successfully. Using their own "rocket model" and original case studies (including Google, Apple, Amazon), they explain how designing, igniting and scaling a platform business requires learning a whole new set of management rules. Platform Strategy also offers many fascinating insights into the future of platforms, their regulation and governance, as well as how they can be combined with other business models. Benoit Reillier and Laure Claire Reillier are co-founders of Launchworks, a leading advisory firm focused on helping organizations develop and scale innovative business models.

today for these changes? What should leaders do now? To answer these questions, Jacob interviewed over 140 CEOs from companies like Unilever, Mastercard, Best Buy, Oracle, Verizon, Kaiser, KPMG, Intercontinental Hotels Group, Yum! Brands, Saint-Gobain, Dominos, Philip Morris International, and over a hundred others. Jacob also partnered with LinkedIn to survey almost 14,000 of their members around the globe to see how CEO insights align with employee perspectives. The majority of the world's top business leaders that Jacob interviewed believe that while some core aspects of leadership will remain the same, such as creating a vision and executing on strategy, leaders of the future will need a new arsenal of skills and mindsets to succeed. What emerged from all of this research is the most accurate groundbreaking book on the future of leadership, which shares exclusive insights from the world's top CEOs and never before seen research. After reading it, you will:

- Learn the greatest trends impacting the future of leadership and their implications
- Understand the top skills and mindsets that leaders of the future will need to possess and how to learn them
- Change your perception of who a leader is and what leadership means
- Tackle the greatest challenges that leaders of the future will face
- See the gap that exists between what CEOs identified versus what employees are actually experiencing
- Become a future-ready leader

This is the book that you, your team, and your organization must read in order to lead in the future of work.

A global expert on hiring and leadership development explains how the choices a person makes in their life about friends, partners, a spouse and elected officials impacts their performance at every task in life. 25,000 first printing.
