Enter the unexpected and intriguing realm of scent, where fragrances have the power to calm as well as to stimulate. These tales from the ancient quest for pleasing aromas offer a microcosm of history's larger movements, from the scented sails of Cleopatra's barges to modern-day fashion trends. This book is more than a historical overview of one of the world's oldest industries, although it's comprehensive, well-researched, and scrupulously accurate in its details. Neither is it just a book of pretty pictures, even though it's abundantly illustrated with lovely drawings and photographs that include every variety of perfume bottle, ads, paintings, as well as famous (and infamous) figures. Fragrance pursues its subject's very essence, with a rich panoply of insights that ranges from the botanical origins of fragrant oils and the role of aromatics in economic and religious life to the ways in which scents influence behavior and chemists extract, preserve, and reproduce fragrances. A fascinating stirring of the senses.

"When Major Gryffth Hockaday is called to the front lines of the Civil War, his new bride is left to care for her husband's three-hundred-acre farm and infant son. Placidia, a mere teenager herself living far from her family and completely unprepared to run a farm or raise a child, must endure the darkest days of the war on her own. By the time Major Hockaday returns two years later, Placidia is bound for jail, accused of having borne a child in his absence and murdering it. What really transpired in the two years he was away?"--

The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis— “ our pre-eminent translator from the Persian ” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi ’ s masterpiece, adding more than 100 pages of newly translated text. Davis ’ s elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

This inaugural-and all new-Tarcher Cornerstone Edition presents a stunningly relevant and reliable translation of the thoughts and aphorisms of the Stoic philosopher and Roman emperor Marcus Aurelius, properly placing the philosopher-king's writings within the vein of the world's great religious and ethical traditions. The late antique world possessed no voice like that of Roman emperor Marcus Aurelius (121-180 CE). His private meditations on what constitutes a good life have withstood the centuries and reach us today with the same penetrating clarity and shining light as the words of Shakespeare, Emerson, or Thoreau. In this remarkable new translation, bestselling religious philosopher Jacob Needleman and classics scholar John P. Piazza have retained the depth of Marcus's perspective on life. They have carefully selected and faithfully rendered those passages that clarify Marcus's role as someone who stood within the great religious and ethical traditions that extend throughout every culture in human history. The voice that emerges from their translation is a universal one, equally recognizable to students of Christ, Buddha, the Vedas, the Talmud, and to anyone who sincerely searches for a way of meaning in contemporary life.
