Thrilling and revelatory, "The Shock Doctrine" cracks open the secret history of our era. Exposing these global profiteers, Naomi Klein discovered information and connections that shocked even her about how comprehensively the shock doctors' beliefs now dominate our world - and how this domination has been achieved.

The Shock Doctrine: The Rise of Disaster Capitalism ...

The Shock Doctrine is an absolute must-read book for anyone curious about the inner-workings of free-market capitalism and the dangers of privatization. The reader will get a good idea of what "democracy" really means for right-wing thinkers and to what extent american economists are ready to go throughout the world to implemented it.

The Shock Doctrine: The Rise of Disaster Capitalism ...

The Shock Doctrine: The Rise of Disaster Capitalism is a 2007 book by the Canadian author and social activist Naomi Klein. In the book, Klein argues that neoliberal free market policies (as advocated by the economist Milton Friedman) have risen to prominence in some developed countries because of a deliberate strategy of "shock therapy". This centers on the exploitation of national crises (disasters or upheavals) to establish controversial and questionable policies, while citizens are too ...

The Shock Doctrine - Wikipedia

The Shock Doctrine: The Rise of Disaster Capitalism was a riveting look at the policies advocated by economist Milton Friedman and his many followers at The Chicago School of Economics. Basically, it is a deliberate and strategic use of shock therapy to implement unpopular policies, utilizing the exploitation of national crises.

The Shock Doctrine: The Rise of Disaster Capitalism by ...

In one such country the deficit before the shock was 3 billion. Twenty years later it was 103 billion: 5 billion a year, most of it going into the pockets of fat cats, some of them economists favouring the change and big companies like Ford. What seems is clear is that laissez faire capitalism is not only theoretically defunct but

The Shock Doctrine retells the story of the most dominant ideology of our time, how the “free market” came to dominate the world — Milton Friedman’s free market economic revolution. In contrast to the popular myth of this movement’s peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq.

Naomi Klein | The Shock Doctrine

“The Shock Doctrine is the defining, covert history of our era.” —Jeremy Scahill, author of Blackwater: The Rise of the World’s Most Powerful Mercenary Army About the Author Naomi Klein is the award-winning author of the acclaimed international bestsellers The Shock Doctrine, No Logo, This Changes Everything, and No Is Not Enough.

The Shock Doctrine: The Rise of Disaster Capitalism: Klein ...

The shock doctrine is a theory for explaining the way that force, stealth and crisis are used in implementing neoliberal economic policies such as privatization, deregulation and cuts to social services. Author Naomi Klein advanced this theory in her 2007 book, The Shock Doctrine: The Rise of Disaster Capitalism.

The shock doctrine | Beautiful Trouble

The Shock Doctrine feels like an attempt of holding people accountable, and it is a very timely and thought-provoking read. It's also entirely infuriating. It's very depressing to be reminded that current events/circumstances are the very basis for the disaster capitalism that Klein describes.

The bestselling author of No Logo shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The Shock Doctrine retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

The shock doctrine is the unofficial story of how the "free market" came to dominate the world, from Chile to Russia, China to Iraq, South Africa to Canada. But it is a story radically different from the one usually told. It is a story about violence and shock perpetrated on people, on countries, on economies. About a program of social and economic engineering that Naomi Klein calls "disaster capitalism." Based on breakthrough historical research and 4 years of reporting in disaster zones, Klein explodes the myth that the global free market triumphed democratically, and that unfettered capitalism goes hand-in-hand with democracy. Instead, she argues it has consistently relied on violence and shock, and reveals the puppet strings behind the critical events of the last 40 years. "The shock doctrine" is the influential but little understood theory that in order to push through profoundly unpopular policies that enrich the few and impoverish the many, there must be a collective crisis or disaster—real or manufactured. Klein vividly traces the origins of modern shock tactics to the economic lab of the University of Chicago under Milton Friedman in the 60s, and beyond to the CIA-funded electroshock experiments at McGill in the 50s which helped write the torture manuals used today at Guantanamo Bay. She details the events of the recent past that have been deliberate theatres for the shock doctrine: among them, Pinochet’s coup in Chile in 1973, the Tiananmen Square Massacre in 1989, the collapse of the Soviet Union in 1991; and, more recently, the September 11 attacks, the invasion of Iraq, the Asian tsunami and Hurricane Katrina. And she shows how—in the hands of the Bush Administration—the "war on terror" is a thin cover for a thriving destruction/reconstruction complex, with disasters, wars and homeland security fuelling a booming new economy. Naomi Klein has once again written a book that will change the way we see the world.

'Impassioned, hugely informative, wonderfully controversial, and scary as hell' John le Carré Around the world in Britain, the United States, Asia and the Middle East, there are people with power who are cashing in on chaos; exploiting bloodshed and catastrophe to brutally remake our world in their image. They are the shock doctors. Exposing these global profiteers, Naomi Klein discovered information and connections that shocked even her about how comprehensively the shock doctors' beliefs now dominate our world - and how this domination has been achieved. Raking in billions out of the tsunami, plundering Russia, exploiting Iraq - this is the chilling tale of how a few are making a killing while more are getting killed. 'Packed with thinking dynamite ... a book to be read everywhere' John Berger 'If you only read one non-fiction book this year, make it this one' Metro Books of the Year 'There are a few books that really help us understand the present. The Shock Doctrine is one of those books' John Gray, Guardian 'A brilliant book written with a perfectly distilled anger, channelled through hard fact. She has indeed surpassed No Logo' Independent

From the bestselling author of The Map and the Territory and Capitalism in America The Age Of Turbulence is Alan Greenspan’s incomparable reckoning with the contemporary financial world, channeled through his own experiences working in the command room of the global economy longer and with greater effect than any other single living figure. Following the arc of his remarkable life’s journey through his more than eighteen-year tenure as chairman of the Federal Reserve Board to the present, in the second half of The Age of Turbulence Dr. Greenspan embarks on a magnificent tour d’horizon of the global economy. The distillation of a life’s worth of wisdom and insight into an elegant expression of a coherent worldview, The Age of Turbulence will stand as Alan Greenspan’s personal and intellectual legacy.

Fearless necessary reporting . . . Klein exposes the 'battle of utopias' that is currently unfolding in storm-ravaged Puerto Rico" (Junot Díaz, author of The Brief Wondrous Life of Oscar Wao) “We are in a fight for our lives. Hurricanes Irma and María unmasked the colonialism we face in Puerto Rico, and the inequality it fosters, creating a fierce humanitarian crisis. Now we must find a path forward to equality and sustainability, a path driven by communities, not investors. And this book explains, with careful and unbiased reporting, only the efforts of our community activists can answer the paramount question: What type of society do we want to become and who is Puerto Rico for?” —Carmen Yulín Cruz, Mayor of San Juan, Puerto Rico In the rubble of Hurricane Maria, Puerto Ricans and ultrarich “Puertopians” are locked in a pitched struggle over how to remake the island. In this vital and startling investigation, bestselling author and activist Naomi Klein uncovers how the forces of shock politics and disaster capitalism seek to undermine the nation’s radical, resilient vision for a “just recovery.” All royalties from the sale of this book in English and Spanish go directly to JunteGente, a gathering of Puerto Rican organizations resisting disaster capitalism and advancing a fair and healthy recovery for their island. “Klein chronicles the extraordinary grassroots resistance by the Puerto Rican people against neoliberal privatization and Wall Street greed in the aftermath of the island’s financial meltdown, of hurricane devastation, and of Washington’s imposition of an outside control board over the most important U.S. colony.” —Juan González, cohost of Democracy Now! and author of Harvest of Empire: A History of Latinos in America

Explains why the environmental crisis should lead to an abandonment of “free market” ideologies and current political systems, arguing that a massive reduction of greenhouse emissions may offer a best chance for correcting problems.

The New York Times–bestselling roadmap to resistance in the Trump era from the internationally acclaimed activist and author of On Fire and The Battle for Paradise. The election of Donald Trump is a dangerous escalation in a world of cascading crises. Trump’s vision—a radical deregulation of the US economy in the interest of corporations, an all-out war on “radical Islamic terrorism,” and a sweeping aside of climate science to unleash a domestic fossil fuel frenzy—will generate wave after wave of crises and shocks, to the economy, to national security, to the environment. In No Is Not Enough, Naomi Klein explains that Trump, extreme as he is, is not an aberration but a logical extension of the worst and most dangerous trends of the past half-century. In exposing the malignant forces behind Trump’s rise, she puts forward a bold vision for a mass movement to counter rising militarism, nationalism, and corporatism in the United States and around the world. Longlisted for the National Book Award “I hope that Klein’s book is read by more than just her (mostly) leftwing fan base. For whatever you think about her economic arguments, she makes a powerful and an important point: that you cannot understand Trump without looking at how he reflects bigger cultural and social dynamics. And what is perhaps refreshing about No Is Not Enough is that Klein tries to move beyond mere outrage and hand-wringing to offer a practical manifesto for opposition.” —Financial Times “Brimms with ideas rarely heard in the mainstream media. And her fiery, punchy writing style, which is occasionally laced with humor, makes it hard to put down.” —The Georgia Straight

Fences and Windows: Dispatches from the Front Lines of the Globalization Debate brings together two years of Naomi Klein’s writings and tracks the globalization conflict from Seattle to September 11th and beyond. Since the publication of No Logo, Naomi Klein has continued tirelessly as a brilliant and informed contributor to contemporary debate. Fences and Windows: Dispatches from the Front Lines of the Globalization Debate, intended as a companion to No Logo, includes her most notable essays, speeches and articles on issues from NAFTA to Genetically Modified Organisms to the violence in Genoa. It offers introduction and explanation, looking at where the movement has come from and where it is going. More than any other single voice, Naomi Klein articulates the concerns and complaints of a generation: about economic fundamentalism, the criminalization of dissent and the effects of Free Trade. But this book also reflects on the nature of resistance: the street protests that shocked and energized millions, carnival-style subversion and the apparent disorganization that is anti-globalization’s great strength. Fences and Windows: Dispatches from the Front Lines of the Globalization Debate is provocative, intelligent and passionate, a document, in its own right, of a unique time in our history.

Meet Blackwater USA, the private army that the US government has quietly hired to operate in international war zones and on American soil. Its contacts run from military and intelligence agencies to the upper echelons of the White House; it has a military base, a fleet of aircraft and 20,000 troops, but since September 2007 the firm has been hit by a series of scandals that, far from damaging the company, have led to an unprecedented period of expansion. This revised and updated edition includes Scahill's continued investigative work into one of the outrages of our time: the privatisation of war.

Crisis? What crisis? How powerful corporations make a killing out of disaster Award-winning journalist Antony Loewenstein travels across the US, Britain, Afghanistan, Pakistan, Haiti, Papua New Guinea and Australia to witness the reality of Disaster Capitalism—the hidden world of privatized detention centers and militarized private security, formed to protect corporations as they profit from war zones. He visits Britain’s immigration detention centers, tours the prison system in the United States, and digs into the underbelly of the companies making a fortune from them. Loewenstein reveals the dark history of how large multinational corporations have become more powerful than governments, supported by media and political elites.
