The Intelligent Parents' Manual: A Practical Guide to the Problems of Childhood and Adolescence provides an introduction to problems that may arise in the development of the child from birth to adolescence. This book discusses the problem in the relation between parents and children. Organized into five parts encompassing eight chapters, this book begins with an overview of the general pattern of a child's growth. This text then examines how parents can protect the baby from the two instinctive fears of the sensation of falling and the sound of loud noises. Other chapters consider the mother's task in a child's life, namely, provide opportunity and freedom, protect the child from physical injury, and keep the child from doing too much damage to property. This book discusses as well the development during adolescence. The final chapter deals with the parent's realistic conception of the limitations of their children and themselves. This book is a valuable resource for parents, psychologists, and psychiatrists.

Edinburgh city break guide

You've broken the law, been sentenced, and now find yourself in jail. You could be in for a hard life. But all is not lost. In Deen-ul-Sujanaa, author Shaykh Ali Jai Al-Zakar, a prison chaplain, offers a straightforward Islamic guidebook to help you move away from your past life of wrongdoing and instead submit yourself to Allah and change your life for good. Especially focusing on people struggling with incarceration and addictive behaviors, Ali Jai relies on the wisdom of the Qur'an to promote individual recovery and to help free you from your own self-made prisons through nineteen steps. Deen-ul-Sujanaa gives a crash course for any detainee, inmate, or prisoner who is seeking solace and resolve, peace, and comfort while awaiting trial, or while serving time. It communicates that the steps to true freedom are not dependent upon probation or parole for the serving of time, but they are realized in complete submission and unification with God.
