news media and its relationships with the man who won and the woman he defeated. Words that Matter assesses how the news media covered the extraordinary 2016 election and, more important, what information—true, false, or somewhere in between—actually helped voters make up their minds. Using journalists' real-time tweets and published news coverage of campaign events, along with Gallup polling data measuring how voters perceived that reporting, the book traces the flow of information from candidates and their campaigns to journalists and to the public. The evidence uncovered shows how Donald Trump's victory, and Hillary Clinton's loss, resulted in large part from how the news media responded to these two unique candidates. Both candidates were unusual in their own ways, and thus

What people heard about these two candidates during the campaign was quite different. Coverage of Trump was scattered among many different issues, and while many of those issues were negative, no single negative narrative came to dominate the coverage of the man who would be elected the 45th president of the United States. Clinton, by contrast, faced an almost unrelenting news media focus on one negative issue—her alleged misuse of e-mails—that captured public attention in a way that the more numerous questions about Trump did not. Some news media coverage of the campaign was insightful and helpful to voters who really wanted

Moreover, they again displayed their overwhelming support of Democratic candidates and even improved their Democratic support in Florida. Nonetheless, their continued presence and participation in national elections was not sufficient to prevent the election of Donald Trump, the Republican presidential candidate who vilified Latinos and especially Latino immigrants. Each essay provides insights as to how these two competing realities coexist, while the conclusion addresses the implications of this coexistence for the future of Latinos in American politics.
