Exam Board: Cambridge Level: KS4 Subject: Vocational First Teaching: September 2017 First Exam: June 2018 Help students build knowledge and prepare for assessment with this essential classroom resource - the only textbook tailored to the Cambridge National Level 1/2 qualification in Health and Social Care. - Comprehensively covers every unit of the specification, allowing you to deliver a flexible and thorough combination of mandatory and optional content. - Prepare your students for the examined unit with detailed guidance, including sample questions and relevant underpinning knowledge. - Contextualises knowledge with activities and case studies throughout. - Engage your students and encourage interactive learning with group activities and class discussion topics

The objective of this book is to help at-risk organizations to decipher the " safety cloud " , and to position themselves in terms of operational decisions and improvement strategies in safety, considering the path already travelled, their context, objectives and constraints. What link can be established between safety culture and safety models in order to increase safety within companies carrying out dangerous activities? First, while the term " safety culture " is widely shared among the academic and industrial world, it leads to various interpretations and therefore different positioning when it comes to assess, improve or change it. Many safety theories, concepts, and models coexist today, being more or less appealing and/or directly useful to the industry. How, and based on which criteria, to choose from the available options? These are some of the questions addressed in this book, which benefits from the expertise of its worldwide famous authors in several industrial sectors.

Education reform has become part of a political imperative in a number of developed countries, including the USA, Japan and the UK. This book questions why this reconstruction occurred at the same time in different places and asks, what common themes are emerging in the restructuring movement?

This book is open access under a CC BY 4.0 license. This textbook, endorsed by the European Society for Blood and Marrow Transplantation (EBMT), provides adult and paediatric nurses with a full and informative guide covering all aspects of transplant nursing, from basic principles to advanced concepts. It takes the reader on a journey through the history of transplant nursing, including essential and progressive elements to help nurses improve their knowledge and benefit the patient experience, as well as a comprehensive introduction to research and auditing methods. This new volume specifically intended for nurses, complements the ESH-EBMT reference title, a popular educational resource originally developed in 2003 for physicians to accompany an annual training course also serving as an educational tool in its own right. This title is designed to develop the knowledge of nurses in transplantation. It is the first book of its kind specifically targeted at nurses in this specialist field and acknowledges the valuable contribution that nursing makes in this area. This volume presents information that is essential for the education of nurses new to transplantation, while also offering a valuable resource for more experienced nurses who wish to update their knowledge.

Our brand-new resources are written specifically to tackle the demands of the GCSE (9-1) Maths.

This report is part of WHO's response to the 49th World Health Assembly held in 1996 which adopted a resolution declaring violence a major and growing public health problem across the world. It is aimed largely at researchers and practitioners including health care workers, social workers, educators and law enforcement officials.

Provides an account, from the point of view of the U.S. Army forces employed, of the 1990-91 Persian Gulf War, from the Iraqi invasion of Kuwait to the withdrawal of coalition forces from southeastern Iraq. It focuses on the Army's part in this war, particularly the activities of the Headquarters, Third Army, and the Army Forces Central Command (ARCENT). It looks especially at the activities of the VII Corps, which executed ARCENT's main effort in the theater ground force schwerpunkt -- General Schwarzkopf's "Great Wheel." This is not an official history; the author speaks in his own voice and makes his own judgments. Maps.

A study carried out under the Commonwealth Tertiary Education Commission's Evaluative Studies Program.
