Opinions: How good were The Beatles? | The Independent

The original lineup of the Beatles, John Lennon, Paul McCartney, George Harrison, Stuart Sutcliffe and Pete Best regularly performed at different clubs in Hamburg, West Germany, during the period from August 1960 to December 1962; a chapter in the group's history which honed their performance skills, widened their reputation, and led to their first recording, which brought them to the attention of Brian Epstein. The Beatles' booking agent, Allan Williams, decided to send the group to Hamburg whe

The Beatles in Hamburg - Wikipedia

The Beatles were a group of four, or three, British Muslims fighting for the extremist, jihadist Islamic State of Iraq and the Levant. Its members were nicknamed "John" , "Paul", "George", and "Ringo" by the hostages, after the four members of the English rock group The Beatles .

Matt Bellamy says for a moment he thought The Jaded Hearts ...

The song started out as a parody of the negative views about immigration that were rife at the time and which were being fuelled by the likes of Powell and others. Lennon apparently thought the song was partly a sly dig at Yoko, but you have to remember that the fabs weren't exactly in a happy place at the time, and the relationship, particularly between John and Paul was pretty rancorous.

Were The Beatles racists!?!

The Beatles came from the pre-Beatles world. They were formed out of the first generation of rock fans. They devoured every new record by Buddy Holly, Chuck Berry, Arthur Alexander, Smokey Robinson, Carole King and the rest of their favourites. They took them apart and saw how they worked.

Were The Beatles underrated? - Saga

The greatest band in the world came from Liverpool, a city with an Irish population so large that it's known as "The Real Capital of Ireland", but although The Beatles' success is familiar to all, their Irish roots are not so well-known.

"A biography of the Beatles, the world's most famous rock band"--Provided by publisher.

As soon as The Beatles became famous, the spin machine began to construct a myth--one that has continued to this day. But the truth is much more interesting, much more exciting, and much more moving. In this bestselling book, Bob Spitz has written the biography for which Beatles fans have long waited. 32 pages of b/w photos.

This inspiring picture book tells the story of the friendship between Ringo, Paul, George, and John, and how their unique talents came together to make something brilliant. In 1957, a boy named Paul met a boy named John. John was funny and confident, while Paul was quiet and steady, but one thing they had in common was a love and talent for songwriting. When they were joined by George and Ringo, they formed the band whose name would soon be known across the world: The Beatles. Together, the Fab Four became the world's best-loved band, drawing huge crowds to packed-out stadiums. But even they got nervous sometimes, and in those times they knew they could rely on each other. Through the power of friendship, The Beatles made their biggest dreams come true and still bring joy to the lives of millions. Friends Change the World is a series of picture books that celebrates the power of friendship. From musical greats to sports champions, scientists and explorers to artists and activists, these are the true stories of real friends who achieved amazing things. Whether best friends since school or thrown together by a chance encounter, they supported and inspired each other to make their shared dreams come true. This charming series shows 4- to 7-year-olds how togetherness, respect, and friendship can make the world a better place.

Winner of the 2020 Baillie Gifford Prize for Non-Fiction A distinctive portrait of the Fab Four by one of the sharpest and wittiest writers of our time "If you want to know what it was like to live those extraordinary Beatles years in real time, read this book." —Alan Johnson, The Spectator Though fifty years have passed since the breakup of the Beatles, the fab four continue to occupy an utterly unique place in popular culture. Their influence extends far beyond music and into realms as diverse as fashion and fine art, sexual politics and religion. When they appeared on The Ed Sullivan Show in 1964, fresh off the plane from England, they provoked an epidemic of hoarse-throated fandom that continues to this day. Who better, then, to capture the Beatles phenomenon than Craig Brown—the inimitable author of Ninety-Nine Glimpses of Princess Margaret and master chronicler of the foibles and foppishness of British high society? This wide-ranging portrait of the four lads from Liverpool rivals the unique spectacle of the band itself by delving into a vast catalog of heretofore unexamined lore. When actress Eleanor Bron touched down at Heathrow with the Beatles, she thought that a flock of starlings had alighted on the roof of the terminal—only to discover that the birds were in fact young women screaming at the top of their lungs. One journalist, mistaken for Paul McCartney as he trailed the band in his car, found himself nearly crushed to death as fans climbed atop the vehicle and pressed their bodies against the windshield. Or what about the Baptist preacher who claimed that the Beatles synchronized their songs with the rhythm of an infant’s heartbeat so as to induce a hypnotic state in listeners? And just how many people have employed the services of a Canadian dentist who bought John Lennon’s tooth at auction, extracted its DNA, and now offers paternity tests to those hoping to sue his estate? 150 Glimpses of the Beatles is, above all, a distinctively kaleidoscopic examination of the Beatles’ effect on the world around them and the world they helped bring into being. Part anthropology and part memoir, and enriched by the recollections of everyone from Tom Hanks to Bruce Springsteen, this book is a humorous, elegiac, and at times madcap take on the Beatles’ role in the making of the sixties and of music as we know it.

Chronicles the legendary band’s rise to prominence and highlights the humor of each member.

Acclaimed author and historian Martin Sandler explores the birth of Beatlemania and its lasting impact

An authorized portrait of one of the world's most famous musicians draws on exclusive interviews and access to personal archives to chronicle his private life and successful career

A close friend and business manager for the legendary group portrays the personal lives of the members of the Beatles, from their youth in Liverpool to their rise to success in the world of pop music to the death of John Lennon in 1980. Reprint.

Rob Sheffield, the Rolling Stone columnist and bestselling author of Love Is a Mix Tape offers an entertaining, unconventional look at the most popular band in history, the Beatles, exploring what they mean today and why they still matter so intensely to a generation that has never known a world without them. Dreaming the Beatles is not another biography of the Beatles, or a song-by-song analysis of the best of John and Paul. It isn't another exposé about how they broke up. It isn't a history of their gigs or their gear. It is a collection of essays telling the story of what this ubiquitous band means to a generation who grew up with the Beatles music on their parents' stereos and their faces on T-shirts. What do the Beatles mean today? Why are they more famous and beloved now than ever? And why do they still matter so much to us, nearly fifty years after they broke up? As he did in his previous books, Love is a Mix Tape, Talking to Girls About Duran Duran, and Turn Around Bright Eyes, Sheffield focuses on the emotional connections we make to music. This time, he focuses on the biggest pop culture phenomenon of all time—The Beatles. In his singular voice, he explores what the Beatles mean today, to fans who have learned to love them on their own terms and not just for the sake of nostalgia. Dreaming the Beatles tells the story of how four lads from Liverpool became the world's biggest pop group, then broke up—but then somehow just kept getting bigger. At this point, their music doesn't belong to the past—it belongs to right now. This book is a celebration of that music, showing why the Beatles remain the world's favorite thing—and how they invented the future we're all living in today.

"We're Going to See the Beatles!" presents the story of Beatlemania in America as experienced by their most devoted fans. "We're Going to See the Beatles!" includes anecdotes from those who cheered the group as they arrived at Kennedy Airport in 1964, who kept vigil for them outside the Plaza Hotel, and who sat in the studio audience of The Ed Sullivan Show for the band's landmark first live TV broadcast. Other fans detail what it was like to see the Beatles in one of their rare concerts at such famous venues as Shea Stadium and Candlestick Park. From the earliest whispers about the band to the Beatles' appearance on The Ed Sullivan Show, and from their subsequent tours and albums to their breakup, author Garry Berman has collected stories from the fans who witnessed the hysteria firsthand. Contributors from around the United States also share photographs and mementos to help create a richly detailed and entertaining oral history. What emerges is a highly personal account of the Beatles and their incredible impact on music and popular culture.
