A handsome, informative overview of Harley Davidson's 100 plus years of style and innovation.

This illustrated guide is packed with interesting facts and follows the history of the famous Harley-Davidson company and the development of its famous bikes, which have earned a special place in the hearts of enthusiasts everywhere. The story dates from 1903 when Bill Harley and the Davidson brothers, with no thought of fame or fortune, decided to build a motorcycle that really worked. So successful was it, that it led to the gradual formation of a company that has survived through good times and bad. Through good times and bad, losing and winning back police contracts, as well as weathering various other vicissitudes, the company has achieved lasting success. In the end, Harley-Davidson came to the ultimate decision of giving its customers what they really wanted, not by providing year-on-year innovations, but by remaining true to the Founders' original concept. The result, as everyone knows, are bikes of mythic status, imbued with a mysterious quality of their own and generating a passion in enthusiasts amounting almost to a love affair. The name has come to personify America and is up there alongside Coca-Cola, Ford and McDonald's. The bikes are described in detail, not only in mechanical terms, but also with glorious photographs, and will be of interest to everyone who loves motorbikes: even aficionados of Japanese and European bikes, who have never even ridden a Harley-Davidson, will be able to recognize the unique marriage of style and nostalgia and the fact that there are no other bikes quite like them.

I was born in 2009 after my creator grabbed her creative balls and decided to let me out of her imagination. Damn, its good to be out and alive! As I said, I was born in 2009 and was let out in 2010. My creator was inspired by a great friend of hers. R.I.P Shawn! He had a passion for riding his motorcycle and was an unbelievable man. My creator has taken an artistic journey and expanded me into a Book complied of crazy digital abstract paintings. She has put me on Hoodies, T-Shirts (long and short

sleeved), and is now doing customized prints of other riders Pride and Joy, their bikes! Soon I hope to be on the back of riders all over the world. People have seemed to taken an interest in me before I even knew wherwe I was going, what a rush it is! The more bikes I get to take on, in an artistic way of course, the more alive I feel. What an empowering journey this is to be a part of something so creative and so different and most importantly being a part of something that captures the very essence of ones glory. To feel the wind at your back, the sun beating down on you, and the energetic force that is the motorcycle! My heart races when I can hear a growl, flying down an open road and it almost seems to whisper catch me if you can. For all those who share the same thrill and love of the ride, youve got to check me out, Steel and Ice Motorcycle Art!!! Cheers all, and remember to always take your friends with you on your journeys!
