Very colored rolling balls are continuously advancing across a sandy road and your goal is to earn points by shooting them. You need to match 3 or more balls of the same color and prevent them from reaching the end of the road.

"Game Feel" exposes "feel" as a hidden language in game design that no one has fully articulated yet. The language could be compared to the building blocks of music (time signatures, chord progressions, verse) - no matter the instruments, style or time period - these building blocks come into play. Feel and sensation are similar building blocks where game design is concerned. They create the meta-

sensation of involvement with a game. The understanding of how game designers create feel, and affect feel are only partially understood by most in the field and tends to be overlooked as a method or course of study, yet a game's feel is central to a game's success. This book brings the subject of feel to light by consolidating existing theories into a cohesive book. The book covers topics like the role of sound, ancillary indicators, the importance of metaphor, how people perceive things, and a brief history of feel in games. The associated web site contains a playset with ready-made tools to design feel in games, six key components to creating virtual sensation. There's a play palette too, so the designer can first experience the importance of that component by altering variables and feeling the results. The playset allows

the reader to experience each of the sensations described in the book, and then allows them to apply them to their own projects. Creating game feel without having to program, essentially. The final version of the playset will have enough flexibility that the reader will be able to use it as a companion to the exercises in the book, working through each one to create the feel described.

One of the twentieth century's great undisputed masterpieces, Malcolm Lowry's *Under the Volcano* includes an introduction by Michael Schmidt in Penguin Modern Classics. It is the fiesta 'Day of the Dead' in the small Mexican town of Quauhnahuac. In the shadow of the volcano, ragged children beg coins to buy skulls made of chocolate, ugly

pariah dogs roam the streets and Geoffrey Firmin - ex-consul, ex-husband, an alcoholic and a ruined man - is living out the last day of his life. Drowning himself in mescal while his former wife and half-brother look on, powerless to help him, the consul has become an enduring tragic figure. As the day wears on, it becomes apparent that Geoffrey must die. It is his only escape from a world he cannot understand. His story, the image of one man's agonised journey towards Calvary, became a prophetic book for a whole generation. Malcolm Lowry (1909-1957) was born and died in England. Between school and studying English at St Catherine's College, Cambridge he spent five months at sea as a deckhand, an experience which gave him the material for his first novel, Ultramarine (1933). After marrying in Paris, he moved to New

and challenging exercises to help you become a better video game designer, whether you are a professional or aspire to be. Each chapter covers a different topic important to game designers, and was taken from actual industry experience. After a brief overview of the topic, there are five challenges that each take less than two hours and allow you to apply the material, explore the topic, and expand your knowledge in that area. Each chapter also includes 10 "non-digital shorts" to further hone your skills. None of the challenges in the book require any programming or a computer, but many of the topics feature challenges that can be made into fully functioning games. The book is useful for professional designers, aspiring designers, and instructors who teach game design courses, and the challenges are great for both

How we came to seek absolute good in religion and nature—and why that quest often leads us astray People have long looked to nature and the divine as paths to the good. In this panoramic meditation on the harmonious life, Michael Mayerfeld Bell traces how these two paths came to be seen as separate from human ways, and how many of today's

conflicts can be traced back thousands of years to this ancient divide. Taking readers on a spellbinding journey through history and across the globe, Bell begins with the pagan view, which sees nature and the divine as entangled with the human—and not necessarily good. But the emergence of urban societies gave rise to new moral concerns about the political character of human life. Wealth and inequality grew, and urban people sought to justify their passions. In the face of such concerns, nature and the divine came to be partitioned from the human, and therefore seen to be good—but they also became absolute and divisive. Bell charts the unfolding of this new moral imagination in the rise of Buddhism, Christianity, Daoism, Hinduism, Jainism, and many other traditions that emerged with bourgeois life. He

follows developments in moral thought, from the religions of the ancient Sumerians, Greeks, and Hebrews to the science and environmentalism of today, along the way visiting with contemporary indigenous people in South Africa, Costa Rica, and the United States. City of the Good urges us to embrace the plurality of our traditions—from the pagan to the bourgeois—and to guard against absolutism and remain open to difference and its endless creativity.

What happens to a dream deferred? This question, from one of Thabo Mbeki's favourite poems by Langston Hughes, provides the thread for this magisterial biography of the second president of a democratic South Africa. In the long shadow of Nelson Mandela, Mbeki attempted to forge an identity for himself as the symbol of modern Africa. Mark Gevisser brings to life the voices and places that made Thabo Mbeki: the frontier of the Eastern Cape; 'Swinging' Britain and neo-Stalinist Moscow in the 1960s; the fraught world of African exile; the confusion of the transition. He examines the meaning of home and exile; of fatherhood and family. He tells the story of South Africa's black elite over a turbulent century

- from 'black Englishman' to revolutionaries to heads of state - and Mbeki's own transition from doctrinaire communism to economic liberalism. Thabo Mbeki: The Dream Deferred is a work of deep scholarship and a gripping, highly readable story. By tracing the path of Mbeki's life, it sheds new light on his political personality and provides unprecedented insight into the dramatic role he has played in South African history.

Investigative journalist Jacques Pauw exposes the darkest secret at the heart of Jacob Zuma's compromised government: a cancerous cabal that eliminates the president's enemies and purges the law-enforcement agencies of good men and women.
