tenses - Step-by-step grammar development - Vocabulary words include Hindi translations
Teacher King's English Beginner Course is the easiest way to learn English. Written by ESL specialist, Kevin L. King, who has taught English as a Second Language for over 30 years around the world.

Training Kit for: Windows Me/98, PageMaker 6.5/7, CorelDraw 9/10, Photoshop 6/7. No previous desktop publishing experience required; now available in English, Hindi, Marathi and Gujarati. Revolutionary 3 stage Self-Learning System (Book + CD)

This book is ideal for high school & engineering students as well as hobbyists who have just started out building projects in Electrical and Electronics fields. The book starts with electrical and electronics fundamentals necessary for execution of projects. The basic knowledge is introduced first followed by a schematic diagram, components list and the theory behind the project to be performed is given. The projects have been divided into three segments corresponding to beginners, intermediate and engineering levels. The materials required to build the projects are commonly available at the corner shop and are less expensive than you

think. FeaturesIdeal for beginners, high school (intermediate), engineering students and hobbyistsUseful for knowing basics of electronic components, circuit, and home lab setup.Practical for doing projects at home or school laboratory

A comprehensive, one-year introductory textbook for Tagalog, the language spoken in the Philippines. Beginning Tagalog has been designed to meet the specific needs of adult native speakers of English who wish to learn spoken Tagalog, though students with other language backgrounds may be able to follow the course with profit. With fairly intensive class scheduling, and assuming laboratory assignments and home study, the text can be covered in one academic year. The text is designed to accomplish two aims. The first is to impart oral control of Tagalog and, by means of an acquaintance with the major patterns of the language, to provide the means for additional independent study that will lead to a full mastery of the structures and a vocabulary that is sufficiently broad to meet the needs of most students. The second aim is to provide accurate, up-to-date information about the patterns of Filipino culture that will enable a student to understand the social customs, standards, values, and aspirations of the Filipino people, in order to prepare him for sympathetic, enlightened, and useful participation in the context of Filipino society. . . . The text consists of 25 units and appendices. In the first half of the text, the student plays the part of hearer and speaker, with only incidental reading of oral dialogs and drills. From Unit XIII on there is a reading section designated for each unit, correlated with the primarily spoken materials, but designed to promote facility in the orthography and distinctive patterns of the written language. . . The basic format is as follows: A. Basic Dialog B. Cultural and Structural Notes C. Pronunciation Exercises (to Unit XIII) D.
