George Orwell (born Eric Arthur Blair), was one of the most prolific English authors of the 20th century. Animal Farm is one of his most celebrated works.

Set at the beginning of the Second World War, Coming Up for Air describes suburban insurance agent George Bowling's return to his birthplace, a sedate Oxfordshire village. This new edition of one of George Orwell's early pre-war works explores the historical and political context of the novel.

The #1 New York Times bestseller and subject of the acclaimed major motion picture Bridge of Spies directed by Steven Spielberg, starring Tom Hanks as James B. Donovan. Originally published in 1964, this is the "enthraling...truly remarkable" (The New York Times Book Review) insider account of the Cold War spy exchange—with a new foreword by Jason Matthews, New York Times bestselling author of Red Sparrow and Palace of Treason. In the early morning of February 10, 1962, James B. Donovan began his walk toward the center of the Glienicke Bridge, the famous "Bridge of Spies" which then linked West Berlin to East. With him, walked Rudolf Ivanovich Abel, master spy and for years the chief of Soviet espionage in the United States. Approaching them from the other side, under equally heavy guard, was Francis Gary Powers, the American U-2 spy plane pilot famously shot down by the Soviets, whose exchange for Abel Donovan had negotiated. These were the strangers on a bridge, men of East and West, representatives of two opposed worlds meeting in a moment of high drama. Abel was the most gifted, the most mysterious, the most effective spy in his time. His trial, which began in a Brooklyn United States District Court and ended in the Supreme Court of the United States, chillingly revealed the methods and successes of Soviet espionage. No one was better equipped to tell the whole absorbing history than James B. Donovan, who was appointed to defend one of his country's enemies and did so with scrupulous skill. In Strangers on a Bridge, the lead prosecutor in the Nuremberg Trials offers a clear-eyed and fast-paced memoir that is part procedural drama, part dark character study and reads like a noirish espionage thriller. From the first interview with Abel to the exchange on the bridge in Berlin—and featuring unseen photographs of Donovan and Abel as well as trial notes and sketches drawn from Abel's prison cell—here is an important historical narrative that is "as fascinating as it is exciting" (The Houston Chronicle).

Orwell draws on his years of experience in India to tell this story of the waning days of British imperialism. A handful of Englishmen living in a settlement in Burma congregate in the European Club, drink whiskey.

The only mistake George Orwell made in his anti-utopia 1984 was the date. A lot of things that he described as if happening in 1984 can be observed in the nowadays world. However, he depicted the future that everyone should be afraid of at any time. The iconic story Animal Farm and the novel 1984 are his brightest works written in the anti-utopian genre that flourished in the 20th century. The pioneer of the anti-utopia is considered to be a Russian writer Yevgeny Zamyatin, whose novel We influenced on the Orwell's works and not less famous Aldous Huxley, the author of Brave New World. And what is more, it was Orwell, who came up with an expression the Cold War. Nineteen Eighty-Four Animal Farm

Air Emissions from Animal Feeding Operations: Current Knowledge, Future Needs discusses the need for the U.S. Environmental Protection Agency to implement a new method for estimating the amount of ammonia, nitrous oxide, methane, and other pollutants emitted from livestock and poultry farms, and for determining how these emissions are dispersed in the atmosphere. The committee calls for the EPA and the U.S. Department of Agriculture to establish a joint council to coordinate and oversee short- and long-term research to estimate emissions from animal feeding operations accurately and to develop mitigation strategies. Their recommendation was for the joint council to focus its efforts first on those pollutants that pose the greatest risk to the environment and public health.

From Joseph Bruchac, the author of the award-winning middle-grade thrillfest Skeleton Man, comes another creepy tale inspired by the folklore of indigenous Americans. Baron has always been fascinated by bears—their gentle strength and untamed power. But the Bearwalker legend, passed down by his Mohawk ancestors, tells of a different kind of creature—a terrible mix of human and animal that looks like a bear but is really a bloodthirsty monster. The tale never seemed to be more than a scary story . . . until a class camping trip deep in the Adirondacks, when Baron comes face-to-face with an evil being that is all too real.
