I thought that after paying \$645 to register for Step 1 and \$60 for each official NBME practice tests, I was done But no, ERAS charges \$85 to SEND my score to ERAS so that programs can see it. I assume that they are using carrier pigeons because I can not think of any other way that sending a 3-digit number virtually could cost \$85

medical student who recently passed the USMLE

Medicine is still largely taught as an apprenticeship. Not until recently have medical students and physicians been taught to critically examine the evidence base behind medical management decisions. This book is perfect for students, not only because it will help them care for patients during their medicine subinternship rotation, but also because it will provide a valuable resource as they prepare for their end-of-rotation NBME shelf examination. The standard of care is constantly evolving, and the pace of its progress is increasing. A busy clinician has difficulty keeping up with the literature as it reports on the results of clinical trials and current "expert consensus". Evidence-Based
