Guide To Hotel Design is a series
of articles that have been
specifically commissioned by

Online Library Beach Resort Design Guidelines

experts to guide readers through the journey – challenges and solutions – of designing a hotel.

The aim of this section is to provide designers, architects and hoteliers with vital information so that they can avoid common pitfalls.

Online Library Beach Resort Design Guidelines

The effect of manmade activities is primarily local but can extend far away from the location of intervention. This underlines the importance of establishing coastal zone management plans covering

Online Library Beach Resort Design Guidelines

large stretches of coastlines. In recent years, interest in Low Crested Structures (coastal defense structures with a low-crest) has been growing together with awareness of the sensitivity to environmental impacts produced by coastal defenses.

Online Library Beach Resort Design Guidelines

The relation between wave climate, beach erosion, beach defence means, habitat changes and beach value, which clearly exists based on EC research results, suggests the necessity of an integrated approach when designing coastal protection

Online Library Beach Resort Design Guidelines

schemes. In accordance with this need, the present design guidelines cover structure stability and construction problems, hydro and morphodynamic effects, environmental effects (colonisation of the structure and

Online Library Beach Resort Design Guidelines

water quality), societal and economic impacts (recreational benefits, swimming safety, beach quality). Environmental Design Guidelines for Low Crested Coastal Structures is specifically dedicated to Low Crested Structures, and provides

Online Library Beach Resort Design Guidelines

methodological tools both for the engineering design of structures and for the prediction of performance and environmental impacts of such structures. A briefing of current best practice for local and national planning authorities, statutory agencies

Online Library Beach Resort Design Guidelines

and other stakeholders in the coastal zone is also covered. Presented in a generic way, this book is appropriate throughout the European Union, taking into account current European Commission policy and directives for the promotion of sustainable

Online Library Beach Resort Design Guidelines

development and integrated coastal zone management. Fills the gap between engineering and ecology in coastal defense planning Shows the reader how to perform an integrated design of coastal defense schemes Presents latest insights on hydro-

Online Library Beach Resort Design Guidelines

morphodynamics induced by
structures Provides directly
applicable tools for the design of
low crested structures Highlights
socio-economic perspectives in
coastal defense design

Effectively Develop and Manage a

Eco-Resorts is a design guide for
low impact, environmentally
friendly tourist resorts in the

Page 64/73

Online Library Beach Resort Design Guidelines

tropics. The book is the first to offer architects practical, detailed guidance in developing resort buildings that work with a tropical climate and meet the needs and expectations of the client and building inhabitants. The book includes both architectural design

Online Library Beach Resort Design Guidelines

and material solutions, supported by theoretical principles, to present a sustainable approach to resort design. It demonstrates that tropical resort buildings do not necessarily require large energy input, in compliance with green building standards. Case

Online Library Beach Resort Design Guidelines

studies show how principles of sustainable design have been successfully applied in tropical environments. * Written by an industry insider with practical design experience, knowledge and expertise. * Demonstrates design practices related to site

Online Library Beach Resort Design Guidelines

planning and layout, and re-assesses best practices for a tropical environment, allowing architects to apply design principles to their own projects. * Includes international case studies from several countries to illustrate best practice from a

Online Library Beach Resort Design Guidelines

variety of tropical climate destinations around the world. Z (Zbigniew) Bromberek, PhD, is an architect educated and registered in Poland, and postgraduate-educated and residing in Australia. Z has been practising and teaching architecture for

Online Library Beach Resort Design Guidelines

nearly 30 years. He has been involved and associated with various educational institutions and professional organizations in a number of countries around the world. Before the current appointment as Senior Lecturer in Architecture at the University of

Online Library Beach Resort Design Guidelines

Tasmania, Z spent three years as Lecturer in Environmental Design at the University of Queensland, and two years as Guest Professor in Architectural Design in Nanjing, PR China. He was also the President of the Architectural Science Association ANZAScA for

Online Library Beach Resort Design Guidelines

three consecutive terms in 2000-05. Z's major research interests include design-environment interaction, low-impact architecture and re-integration of architecture as an expression of a multi-disciplinary approach to design.
