discovered far later in the modern era.

This study illustrates why the language of
the Qur'an is miraculous, unique, and
evidence of divine authority. The author
compares the language of the Qur'an with
the language of pre-Islamic poetry, the
Prophet's words (hadith), and the language
of the Arabs both past and present, to
demonstrate that although the Qur'an was
revealed in Arabic it was at the same time
an Arabic which was entirely new.

Original and early Muslim audiences
viewed this as miraculous and responded

which modern ears, trained by familiarity, and despite being surrounded by all manner of dictionaries and studies, are at a loss to capture. The author attempts to remove this veil and present the Qur'an to readers as if hearing it for the first time, to bring to life some of this wonder. In doing so he guides readers to appreciate the beauty of the Qur'an, to become more immersed in it, and to have a clearer understanding of its structure and flow. Devoting special attention to Surah Al Muddaththir, to underpin his analysis, Saeh thus brings the Revelation to life, to demonstrate that each surah has distinct features and characteristics that make it stand out uniquely within the design and sweep of the whole.

Ever since the dawn of human life on this planet, Man has always sought to understand Nature, his own place in the

scheme of Creation and the purpose of Life itself. In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents to be divinely inspired, others have relied solely on human experience. Al-Qur ' aan, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains guidance for all mankind. Since the message of the Qur ' aan is believed to be for all times, it should be relevant to every age. Does the Qur ' aan pass this test? In this booklet, I intend to give an objective analysis...

truthfulness of Islam. It is the standing and everlasting miracle, but very rarely, have we heard how is it a miracle? The Qur'an is the ultimate miracle of our Prophet Muhammad (Sallahualaihi wassalam - S.A.W). It is such a miracle that all the other miracles are considered trivial and inconsequential compared to the Qur'an. This is because the Qur'an is so powerful, so bright and blinding that no matter how bright the other miracles are; when you have the sun, the stars become useless. In this book, Dr. Yasir Qadhi discussed on the miracles of the Qur'an that we either have never acknowledge or we often overlooked. The miracles of the Qur'an are endless and the points are abundance to be mentioned.

Understanding of the creation of the universe from a new perspective. The author discusses the Quran's descriptions of a number of natural phenomena, including complex topics of philosophy and physics, while also examining the Quran's mathematical code described with tables and text.

Calling the Qur'an amazing is not something done only by Muslims, who have an appreciation for the book and who are pleased with it; it has been labelled amazing by non-Muslims as well. In fact, even people who hate Islam very much have still called it amazing. This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. the most respected and widely acclaimed authorities on Twelver Shi'ite Islam in this century. This book, which was first published in Arabic in 1974, presents al-Khuis comprehensive introduction to the history of the Quran. In it, al-Khui revisits many critical and controversial topics connected with the collection and ultimate canonization of the text that have received little attention in contemporary Muslim scholarship since the classical age. For instance, he tackles what is probably the single most controversial subject in Quranic studies: the question of possible alterations to the Quran as maintained by some succeeding generations of compilers of the Quran. Throughout the volume, al-Khui stresses the importance of understanding the historical setting in which the Quran was revealed; he does this in order to apply its provisions appropriately in contemporary Muslim

society, with its ever-expanding legal and ethical requirements. In addition to expounding his own views, al-Khui also has the polemical purpose of refuting Sunni beliefs and concepts concerning various matters related to the theories of alteration and abrogation in the Quran. His arguments illuminate some of the substantial yet little-understood and appreciated issues that have been truly at stake between the two principal segments of the Muslim community. Translator Abdulaziz A. Sachedina supplies a helpful introduction to al-Khui's work, discussing the methodological problems involved with the study of such texts, and placing it in the historical context of polemic literature in Islam.
