not published regulations dealing specifically with confined spaces found in the construction industry. The OSHA confined-space standard, 29 CFR 1910.146, is written for general industry and states that it is not applicable to construction. However, the construction standard relating to safety training and education (29 CFR 1926.21) places an affirmative duty on the employer to train employees who enter confined or enclosed spaces ...

"This booklet is written for managers and supervisors in industries that involve the manual handling of containers. It offers suggestions

File Type PDF Cal Osha Confined Space Guide

to improve the handling of rectangular, square, and cylindrical containers, sacks, and bags. "Improving Manual Material Handling in Your Workplace" lists the benefits of improving your work tasks. It also contains information on risk factors, types of ergonomic improvements, and effective training and sets out a four-step proactive action plan. The plan helps you identify problems, set priorities, make changes, and follow up. Sections 1 and 2 of "Improvement Options" provide ways to improve lifting, lowering, filling, emptying, or carrying tasks by changing work practices and/or the use of equipment. Guidelines for safer work practices are also included. Section 3 of "Improvement Options" provides ideas for using equipment instead of manually handling individual containers. Guidelines for safer equipment use are also included. For more help the "Resources" section contains additional

File Type PDF Cal Osha Confined Space Guide

information on administrative improvements, work assessment tools and comprehensive analysis methods. This section also includes an improvement evaluation tool and a list of professional and trade organizations related to material handling."--Page 6.
