Two new titles that provide comprehensive coverage of the syllabus. Units 1 and 2 of Biology for CAPE® Examinations provide a comprehensive coverage of the CAPE® Biology syllabus. Written by highly experienced, internationally bestselling authors Mary and Geoff Jones and CAPE® Biology teacher and examiner Myda Ramesar, both books are in full colour and written in an accessible style. Learning objectives are presented at the beginning of each chapter, and to assist students preparing for the examination, each chapter is followed by questions in the style they will encounter on their examination papers.

These Study Guides have been developed exclusively with the Caribbean Examinations Council (CXCRCG) to be used as an additional resource by candidates who are following the Caribbean Secondary Education Certificate (CSECRCG) programme. They provide candidates with extra support to help them maximise their performance in their examinations.

Gives a clear explanation of the basic principles of task-based teaching Contains many examples of tasks and lesson plans from teachers around the world Provides sample materials and lesson plans showing how to focus on meaning, language, and form Includes guidance on adapting existing course materials to include a task-based element Suitable for teacher training courses or for individual teachers Authors are leading world experts on task-based teaching

Help Caribbean students understand the society they live in while ensuring full coverage of the 2013 syllabus. - Ensure complete coverage of Units 1 and 2 in a single volume, while giving the students the opportunity to make links between content at both levels. - Illustrate key research for each topic with Caribbean and international studies. - Support learning with exclusive online content, providing additional new material, guidelines to doing the Internal Assessment (IA) and a student friendly approach to research.

From New York Times bestselling author Sam Kean comes incredible stories of science, history, finance, mythology, the arts, medicine, and more, as told by the Periodic Table. Why did Gandhi hate iodine (I, 53)? How did radium (Ra, 88) nearly ruin Marie Curie's reputation? And why is gallium (Ga, 31) the go-to element for laboratory pranksters?* The Periodic Table is a crowning scientific achievement, but it's also a treasure trove of adventure, betrayal, and obsession. These fascinating tales follow every element on the table as they play out their parts in human history, and in the lives of the (frequently) mad scientists who discovered them. THE DISAPPEARING SPOON masterfully fuses science with the classic lore of invention, investigation, and discovery--from the Big Bang through the end of time. *Though solid at room temperature, gallium is a moldable metal that melts at 84 degrees Fahrenheit. A classic science prank is to mold gallium spoons, serve them with tea, and watch guests recoil as their utensils disappear.

This text probes topics and reviews progress in interfacial electrochemistry. It supplies chapter abstracts to give readers a concise overview of individual subjects and there are more than 1500 drawings, photographs, micrographs, tables and equations. The 118 contributors are international scholars who present theory, experimentation and applications.

Examines the psychological motivation of chess players and discusses the role of subjective and irrational considerations in influencing a chess player's decisions

This CAPE Biology Multiple Choice Practice book is an invaluable exam preparation aid for CAPE Biology students. This book provides excellent practice for the multiple choice questions from Paper 1 of the CAPE examination, and has been specially written to help CAPE Biology students improve their Paper 1 exam score.

Thinking Skills, second edition, is the only endorsed book offering complete coverage of the Cambridge International AS and A Level syllabus.
