Chemistry students and Homeschoolers! Go beyond just passing. Enhance your understanding of chemistry and get higher marks on homework, quizzes, tests and the regents exam with E3 Chemistry Guided Study Book 2018. With E3 Chemistry Guided Study Book, students will get clean, clear, engaging, exciting, and easy-to-understand high school chemistry concepts with emphasis on New York State Regents Chemistry, the Physical Setting. Easy to read format to help students easily remember key and must-know chemistry materials. . Several example problems with guided step-by-step solutions to study and follow. Practice multiple choice and short answer questions along side each concept to immediately test student understanding of the concept. 12 topics of Regents question sets and 2 most recent Regents exams to practice and prep for any Regents Exam. This is the Home Edition of the book. Also available in School Edition (ISBN: 978-1979088374). The Home Edition contains answer key to all questions in the book. Teachers who want to recommend our Guided Study Book to their students should recommend the Home Edition. Students and parents whose school is not using the Guided Study Book as instructional material, as well as homeschoolers, should also buy the Home edition. The School Edition does not have the answer key in the book. A separate answer key booklet is provided to teachers with a class order of the book. Whether you are using the school or Home Edition, our E3 Chemistry Guided Study Book makes a great supplemental instructional and test prep resource that can be used from the beginning to the end of the school year. PLEASE NOTE: Although reading contents in both the school and home editions are identical, there are slight differences in question numbers, choices and pages between the two editions. Students whose school is using the Guided Study Book as instructional material SHOULD NOT buy the Home Edition. Also available in paperback print.

PREVIEW, READ AND PRINT OVER 60 PAGES OF THIS BOOK BEFORE BUYING. Visit our website (SURVIVINGCHEM dot COM) to get a stunning online digital Flipbook preview. THE NEW 2012 REVISION (ISBN: 978-1478257868) OF THIS BOOK IS NOW AVAILABLE ON AMA-ZON . WE HIGHLY RECOMMEND THE 2012 REVISION TO THE OLD EDITION THAT YOU ARE VIEWING. PLEASE CLICK ON THE AUTHORS NAME TO FIND THE 2012 REVISION OF THIS BOOK, AND ALSO TO SEE ALL OF E3 SCHOLASTIC BOOKS. THANKS.Surviving Chemistry Guided Study Book: Simplifying and making High School Chemistry more exciting to learn, more engaging to study, and easier to understand for every student.Black Print Version: Newly revised to include the 2011 Edition Reference Tables.This Guided Study Book is a great companion to the Workbook (sold separately). This book is also available in color print for great visual and easier learning of chemistry. This Guided Study Book is available in three cover colors: Blue, Pink and Green. Your book. Your Color. Your Choice. This comprehensive Guided Study Book covers 12 high school chemistry topics. Chemistry concepts that are covered in this Guided Study Book are High School standards. This is a great study book for reviewing, learning and practicing problems on all high school chemistry concepts. Highly recommended for high school classes everywhere.Book Summary:12 high school chemistry topics. 400 sets of concepts outlined and explained one at a time.350 example problems with clean, clear, easy-to- follow step-by-step solutions.400 practice questions grouped by Topics. Thousands more questions in the Workbook .Several diagrams & graphs for enhanced visual learning. Several summary tables for quick review and comparisons of similarities and differences of multiple concepts.The set-by-set grouping of notes by concepts allows for the following benefits to students.Student Benefits: Pick and choose which concept to study. No need to study the whole topic . Focus and concentrate more effort on concepts you are struggling with. Concept facts are clearly marked for each concept so students know which information is to be memorized. Concept Facts are clearly outlined for easy studying and memorization. Concept Task are clearly marked for each concept so students know what type of problem they should be able to solve. Example problems are given and clearly solved for each concept task so students can follow and be able to solve similar problems . Problems in the Workbook (sold separately) are in the same order as covered in this Guided Study Book. Students can find help easily in this Guided Study book on how to solve any problem in the Workbook.12 Topics of high school chemistry core curriculum standards covered in this Book: 1. Matter and Energy 2. Periodic Table 3. Atomic Structure 4. Chemical Bonding5. Formulas and Equations 6. Mole and Stoichiometry 7. Solutions 8. Acids, bases and Salts 9. Kinetics and Equilibrium 10. Organic Chemistry 11. Redox and Electrochemistry 12.Nuclear Chemistry Teacher's Copy / Answer Key. Teacher's copy of the Guided Study Book contains answers to all questions in the book. Answers in the book are clean, clear, bold and highlighted for easy and effortless correcting of work in the Guided Study Book. Because this book is used in chemistry classrooms of many schools, Teacher's Copy can only be purchased through the publisher. Instruction on obtaining Teacher's Copy can be found in the book, or you can visit the Publisher's website for more information.Please click on the Author's name to view more of our EXCITING, ENGAGING, and ENHANCING books in the Surviving Chemistry Book Series. PREVIEW, READ AND PRINT OVER 60 PAGES OF THIS BOOK BEFORE BUYING. Visit our website (SURVIVINGCHEM dot COM) to get a stunning online digital Flipbook preview. The book contains a whole year of supplemental high school chemistry resources (guided reading, example problems, step-by-step guided solutions, practice problems, and test and exam preps and review) that will be of great benefits to both teachers and students. For teachers, this book provides you with comprehensive supplementary materials that you can use to assign guided reading and homework assignments to your students on just about any chemistry concept in 13 topics of high school chemistry. The organization of this book allow for easy assigning, easy correcting, easy assessment and easy evaluation of your students' work. This book will provide you resources that are totally different from all other books, as well as a totally new experience in assigning, correcting, and evaluating. For all chemistry students (especially struggling students), the organization and format of this book provide them with a simplified, easy-to-follow, easy-to-learn and easy-to-understand guided study of chemistry materials, as well as engaging example and practice problems to test their understanding of the concepts they are studying. Students will get a total new and enhancing learning experience of high school chemistry. We have six different types of chemistry books on here, and each book is written to meet different needs of teachers and students. Please use the "LOOK INSIDE" the book feature to see Table of Contents as well as sample pages from this book. The format and organization of materials in the sample pages should give you a good sense as to whether your needs will be met by the content of this book. Please click on the Author's name to see all of our books. You can also get this book in Pink Cover Color.

Chemistry students and Homeschoolers! Go beyond just passing. The Home Edition of this book (ISBN: 978-1981186310) contains answer key to all questions in the book. Teachers who want to recommend our Guided Study Book to their students should recommend the Home Edition. Students and parents whose school is not using the Guided Study Book as instructional material, as well as Homeschoolers, should buy the Home edition. PLEASE NOTE: Although reading contents in both the school and home editions are identical, there is a slight difference in question numbers, choices and pages between the two editions. Students whose school is using the Guided Study Book as instructional material SHOULD NOT buy the Home Edition.

The image on the front cover depicts a carbon nanotube emerging from a glowing plasma of hydrogen and carbon, as it forms around particles of a metal catalyst. Carbon nanotubes are a recently discovered allotrope of carbon. Three other allotropes of carbon-buckyballs, graphite, and diamond-are illustrated at the left, as is the molecule methane, CH₄, from which nanotubes and buckyballs can be made. The element carbon forms an amazing number of compounds with structures that follow from simple methane, found in natural gas, to the complex macromolecules that serve as the basis of life on our planet. The study of chemistry also follows from the simple to the more complex, and the strength of this text is that it enables students with varied backgrounds to proceed together to significant levels of achievement.

This book was created to help teachers as they instruct students through the Master's Class Chemistry course by Master Books. The teacher is one who guides students through the subject matter, helps each student stay on schedule and be organized, and is their source of accountability along the way. With that in mind, this guide provides additional help through the laboratory exercises, as well as lessons, quizzes, and examinations that are provided along with the answers. The lessons in this study emphasize working through procedures and problem solving by learning patterns. The vocabulary is kept at the essential level. Practice exercises are given with their answers so that the patterns can be used in problem solving. These lessons and laboratory exercises are the result of over 30 years of teaching home school high school students and then working with them as they proceed through college. Guided labs are provided to enhance instruction of weekly lessons. There are many principles and truths given to us in Scripture by the God that created the universe and all of the laws by which it functions. It is important to see the hand of God and His principles and wisdom as it plays out in chemistry. This course integrates what God has told us in the context of this study. Features: Each suggested weekly schedule has five easy-to-manage lessons that combine reading and worksheets. Worksheets, quizzes, and tests are perforated and three-hole punched – materials are easy to tear out, hand out, grade, and store. Adjust the schedule and materials needed to best work within your educational program. Space is given for assignments dates. There is flexibility in scheduling. Adapt the days to your school schedule. Workflow: Students will read the pages in their book and then complete each section of the teacher guide. They should be encouraged to complete as many of the activities and projects as possible as well. Tests are given at regular intervals with space to record each grade. About the Author: DR. DENNIS ENGLIN earned his bachelor's from Westmont College, his master of science from California State University, and his EdD from the University of Southern California. He enjoys teaching animal biology, vertebrate biology, wildlife biology, organismic biology, and astronomy at The Master's University. His professional memberships include the Creation Research Society, the American Fisheries Association, Southern California Academy of Sciences, Yellowstone Association, and Au Sable Institute of Environmental Studies.
