Bring deeper understanding to your science/biology classroom through the use of Life Science. The true-to-life drawings and wide variety of topics including systems, cycles, and kingdoms of living things serve as excellent supplements to your already information-rich curriculum. The well-chosen vocabulary on each page blends well with most all biology texts, making this an ideal resource for all comprehensive life science teachers and students. Life Science is a collection of true-to-life drawings showing a variety of systems, cycles, orders, and more in the five kingdoms of living things. These drawings were designed for use as labeling activities which will familiarize your students with the concepts. These activities will serve as excellent supplements for any comprehensive study of science or biology.

Hârun Yahya explores the concept of the atom from an Islamic perspective. The author considers the miracle of the atom by asking and answering questions that focus on what the atom is and how it functions and exists.

From Newbery Medal-winning author Betsy Byars comes a sweet, entertaining story that will touch the heart of dog lovers at any age. A tornado appears in the distance, and the family quickly gathers into the storm cellar. The storm rages outside, but Pete, the farmhand, knows this is the perfect time to tell his stories about a dog named Tornado. Blown into their lives by a twister when Pete was a boy, Tornado was no ordinary dog—he played card tricks, saved a turtle ' s life, and had a rivalry with the family cat. Forgetting their fear, the family hangs on every word of Pete ' s stories—both happy and sad—of this remarkable dog.

Scenes illustrating the popular children's rhyme feature animals and objects that begin with the letters from A to Z.

Miss Mingo helps all of the animal students in her class overcome their shyness on the first day of school by encouraging them to share something special about themselves, in an informative book filled with facts about frogs, ants, snakes, crickets, and a host of other familiar animals.

Rain, now a 12-year-old, is visited once again by the eagle, but this time in a dream. As Rain sleeps, Sky Heart, the eagle, sings a song to him that ends with the refrain, 'a boy must help us.' In the song, Sky Heart provides clues about strange vanishings on the Medicine Cave Indian Reservation. Thistle, the rabbit, has suspicions that Coyote is behind the disappearance of fossils from an ancient turtle, the sudden evaporation of water from the reservation's rivers, and the ominous absence of a 7th grader from Thunder Rock Middle School. Searching for the meaning of the dream, Rain seeks the help of Boomer (Thunder Cloud), Simon, and Hummingbird. Unknowingly, the four friends are drawn into the coyote's game and the criminal activities of a dangerous fossil poaching ring. Deep within the gullies of Shell Ridge, an escarpment that borders the bed of an ancient sea, Rain follows Coyote to a mysterious cave where he discovers the origins of the reservation's water and confronts the notorious fossil thief, Vernon Smeed--risking everything to save one that he loves. With
