More Food: Road to Survival is a comprehensive analysis of agricultural improvements which can be achieved through scientific methods. This reference book gives information about strategies for increasing plant productivity, comparisons of agricultural models, the role of epigenetic events on crop production, yield enhancing physiological events (photosynthesis, germination, seedling emergence, seed properties, etc.), tools enabling efficient exploration of genetic variability, domestication of new species, the detection or induction of drought resistance and apomixes and plant breeding enhancement (through molecularly assisted breeding, genetic engineering, genome editing and next generation sequencing). The book concludes with a case study for the improvement of small grain cereals.

Readers will gain an understanding of the biotechnological tools and concepts central to sustainable agriculture *More Food: Road to Survival* is, therefore, an ideal reference for agriculture students and researchers as well as professionals involved sustainability studies.

"Hormegeddon" is the term coined by entrepreneur and New York Times Bestselling Author Bill Bonner to describe what happens when you get too much of a good thing in the sphere of public policy, economics and business. Simply put, it ends in disaster. Drawing on stories and examples from throughout modern political history-from Napoleon's invasion of Russia to the impending collapse of the American healthcare system, from the outbreak of WWII and the fall of the Third Reich to the 21st century War on Terror, from the Great Recession to the

sovereign debt crisis-Bonner pursues a modest ambition: to understand what goes wrong. History is not a clean yarn spun by its victors. It is a long tale of things that went FUBAR-debacles, disasters, and catastrophes. That each disaster carries with it a warning is what makes it useful to study. For instance, if the architect of a great ship tells you that 'not even God himself could sink this ship, ' you should take the next boat. If the stock market is selling at 20 times earnings and all the expert analysts urge you to 'get in' because you 'can't lose'-it's time to get out! Similarly, public policy disasters are what you get when well meaning people with this same Titanic degree of certitude apply rational, small-scale problem-solving logic to inappropriately large scale planning. First, you get a declining rate of return on your investment (of time or resources) until you hit zero. Then, if you keep going

through the zero floor-and you always keep going-you get a disaster. The problem is, these disasters cannot be stopped by well-informed smart people with good intentions, because they are the people who cause them in the first place. From the mind of Bill Bonner comes Hormegeddon, a phenomenon that occurs when a small dose of something produces a favorable result, but if you increase the dosage, the results end in disaster. The same applies when the world gets too much of a good thing in public policy, economics, and business. Drawing on examples throughout modern political history, Bonner brings context and understanding to this largely ignored and anonymous phenomenon.

Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from *Walking Through Clear Water in a Pool Painted Black* and other publications. Also the best of Cookie's art columns from *Details* magazine, and the funniest of her advice columns from the *East Village Eye*, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before *Bright Lights*, *Big City*, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.

K ' wan is back with the second, bloody installment in the new Animal saga. Secrets are revealed, sides are chosen and bodies are dropped...it's on! The man ordered to take Animal from the world turns out to be the man who brought him into it. Animal finds himself torn between his hatred for the father who had abandoned him and the man who had taken everything from him. An uneasy truce is formed between father and son to take down a common enemy and finally grant Animal his freedom from the blood debt he's carried for so many years. But when the ghosts of Animal's past catch up with him he learns that nothing is what it seems, and everything is subject to corruption, even his love for Gucci.

definitely. And in a bad, not a good, way. Her trouble-magnet little brother has gone and gotten involved with vampires...and the deal's gone bad. Now he owes them and their repayment plan involves dead bodies rather than monthly payments. Which means Eva has no choice but to approach the last person she ever wanted to for help. Alex. Her older, hot, ex-cousin from her mother's short-lived third, or was it fourth, marriage. He's also a billionaire. Hot, ripped, wealthy... Oh, yeah, and an alpha werewolf. There's just one problem. Alex Kingwood never does anything without a price... Her. For as long as he wants her. Turned by the Billionaire Werewolf She's bartered her body to the big, bad wolf...now she's in danger of losing her heart as well. In return for dealing with her brother's vampire problem, Eva belongs to the Alpha of the Kingwood pack, and billionaire werewolf,

Alex. The sex is scorching, and Alex as powerful and charismatic as she'd remembered him. An overbearing asshole she can deal with, but when the mask slips, her heart might end up a casualty of their little war too. One weekend, that's all he'd thought he needed. Now a lifetime won't be enough... Alex has Eva, the woman he's lusted after for years. Sex. That's what he'd told himself was what he needed. He'd get her own from under his skin and get rid of her. But things don't go to plan when long-buried emotions get involved. Then someone else has issues with their arrangement, and Alex finds himself making the hardest choice of his life. Save her, kill her, or condemn her to a fate worse than death? Mated to the Billionaire Werewolf Eva has two problems; Her wolf and her lover are both avoiding her. New werewolf Eva has two problems. One, her wolf seems reluctant to make an

appearance and two, Alex, her lover and alpha of the Kingwood pack, is avoiding her. Has she failed at being a wolf before she'd even begun? He bit her to save her life, so why won't he even look at her now? If she's not a wolf, she can't be his... Biting Eva to save her life was a mistake Alex can't regret, but pack law states he has to let her go if her wolf doesn't manifest. So far, Eva's wolf seems non-existent, a fact more than one member of the pack has noticed. He has to distance himself from her, send her away, but he can't. Add in a deal he doesn't want to make with the local vampires, and Alex is ready to cut loose and deal with some issues with his claws and teeth... But pack law rules absolute and a challenge is issued that could destroy their future before it begins...
