Bright red terra sigillata pots dating to the first three centuries CE can be found throughout the Western Roman provinces. The pots' widespread distribution and recognisability make them key evidence in the effort to reconstruct the Roman Empire's economy and society. Drawing on recent ideas in material culture, this book asks a radically new question: what was it about the pots themselves that allowed them to travel so widely and be integrated so quickly into a range of contexts and practices? To answer this question, Van Oyen offers a fresh analysis in which objects are no longer passive props, but rather they actively shape historical trajectories.

HISTORY OF SPECIFIC SUBJECTS. What role did Scotch whisky play in the development of the steam engine? Who first coined the word 'alcohol'? Spirits and drink historians Anistatia Miller and Jared Brown know. They have been on a spirituous journey since they first launched their website Shaken Not Stirred: A Celebration of the Martini and the book by the same name. Fifteen years of travel around the world, a few worn out library cards, and thousands of pages of undiscovered research later, they have amassed their findings in the two-volume work, Spirituous Journey: A History of Drink, of which this is the first. Jared Brown is Master Distiller at Sipsmith Independent Spirits. He is publisher of Mixellany Books, specializing in drink-related subjeets and co-author, with his wife Anistatia Miller, of a few dozen books. He is a regular contributor to the Guardian and Observer Food Monthly.

Surgeons around the world need a basic knowledge of English to keep up to date with advances in their field. Fluency in surgical English is important for your professional development, enabling you to attend English-speaking patients with confidence, to study (or work) in other hospitals, speak confidently at international meetings, and to write articles for international journals. This book will provide you with the basic tools to handle day-to-day situations without stress and will help you to improve your English, no matter what your level. To our knowledge, this is the first English book written specifically by surgeons for surgeons. We are sure that surgical specialists from all over the 'non-English-speaking world' (general surgeons, thoracic surgeons, vascular surgeons, neurosurgeons, gynecologists, plastic surgeons) will enjoy reading it.

English is not your mother tongue? This enjoyable book offers everything you need to cope with everyday situations as a resident in English-speaking countries, at scientific meetings or just to stay up to date with medical advances. Each chapter starts with a cartoon.

This is an introductory book to radiological English on the basis that there are a lot of radiologists, radiology residents, radiology nurses, radiology students, and radiographers worldwide whose English level is indeterminate because their reading skills are much higher than their fluency. It is intended to help those health care professionals who need English for their work but do not speak English on a day-to-day basis.

Doctorow's novels imagine the great moments of American history - the Old West, the Depression - as backdrops for tales of moral pain and injustice. In these interviews, Doctorow explores the themes of his work.

A revised and fully updated edition, featuring five new chapters reflecting recent scholarship on Woolf.

'Divine interiors' is een onderzoek naar de aankleding van Griekse en Romeinse heiligdommen met wandschilderingen. Machtige marmeren facades, beeldhouwwerken en schilderijen speelden een belangrijke rol in het aanzien van deze monumenten. Terwijl de offici le tempels, die met de steden of de staat waren verbonden, meestal een plechtige maar sobere uitstraling hadden, waren de gebouwen die gericht waren op meer volkse uitingen van religiositeit juist bont beschilderd. Sc nes uit het leven van de vereerde godheid, aanhangers en beoefenaren van de cultus, planten en dieren konden de bezoekers van deze heiligdommen in hogere sferen brengen. Het valt op dat er in de uitgestrekte Grieks-Romeinse wereld veel overeenkomsten te vinden zijn tussen vaak ver van elkaar gelegen tempels. De muurschilderkunst kende net als andere kunstvormen stijl- en smaakveranderingen, maar die hadden wel overal dezelfde uitstraling.
