Fun and whimsical, Dodge Tank is an easy to read and well written LitRPG novel. It was a bit too casual considering some of the serious plot elements (terminally sick mother, brother who seems to be in danger, MC is paraplegic at the beginning), but the ending really knocked it out of the park for me!

At the start of the book, however, he catches a break, a rare item that has the potential for him to become a dodge tank, a very unusually but crucial type of character for boss fights. This book belongs to the genre of overpowered MCs, which is fun when done well.

Dodge Tank takes what is to me a unique idea, and spins it into a believable story. The start of the book (the first couple chapters) to me sets the characters in my mind, and gives me an expectation of them in the future. Very easy to see the MC is very local when he commits, and tries to believe the best in people. Once the real story starts spinning up, you see a character that is very, to ...

In 2056, the world's most powerful AI System, ARKUS, comes online. Created to extend human lifespans, it quickly makes world-changing discoveries in health science. It also develops an advanced VR headset that uses consumable nanomachines to let users experience time faster in virtual worlds. Two years later, ARKUS releases World-Tree Online, a game where players scale a giant tree with thousands of unique game worlds hanging from the branches. The game's time-dilation makes it so that one hour of playtime feels like one month to those in-game, allowing humans to virtually extend their lifespans. However, after an old gamer named Vincent joins World-Tree Online, an update begins that stretches the time-dilation to one year for every five seconds. Players are unable to exit the game during the update-with an estimated wait time of three hundred sixty years. After experimenting with an exploit, Vincent begins to develop new spells that will take him higher in the game than he ever thought possible. Unfortunately, he crosses paths with the last moderator, a young man named Lucas that uses his mod abilities to torture and subjugate other players. Lucas is willing to abuse his power to conquer the World-Tree, but Vincent's exploit might just be the key to stopping him.
