If you are called to help people in crisis in your community, this book can show you how to use the Bible in counseling.

Do you have the leadership skills you need to solve problems, reach goals, and develop others? The COACH Model® is a radically different approach to leading people. Rather than provide answers, leaders ask questions to draw out what God has already put into others. ICF Professional Certified Coach and speaker Keith Webb teaches Christian leaders how to create powerful conversations to assist others to solve their own problems, reach goals, and develop their own leadership skills in the process. Whether leaders are working with employees, teenagers, or a colleague living in another city, they'll find powerful tools and techniques to increase leadership effectiveness. Based on first-hand experience and taught around the world, The COACH Model for Christian Leaders is packed with stories and illustrations that bring the principles and practice to life and transform leaders' conversations into powerful results.

This guide has been written to help Christian leaders in their counseling work. Case studies are matched with biblical analyses. This then leads to a survey of causes, effects, counseling considerations, and suggested ways to prevent the problem.

Leadership Coaching is an essential tool for anyone who wants to learn to coach or improve their coaching skills. Written by a top Christian coach trainer, it is filled with real-life stories, practical tools and application exercises that bring coaching techniques to life. Part I is an in-depth look at how coaching fits with the purposes of God. Starting with key biblical concepts about how God builds leaders, this book goes beyond proof-texting to present an integrated, values-based paradigm for leadership coaching. Part II uses a hands-on, interactive approach to show you how to coach. Utilizing the seven key elements of effective coaching as a framework, each facet of the coaching relationship is explained in detail. Then follow-up Master Class sections help you internalize the key concepts and try them out in real life. Leadership coaching is a great introduction to a powerful way of helping others grow.

New elders and veteran leaders alike will find wisdom, biblical guidance, and useful suggestions in Gary Straub's examination of the crucial role of elders in Christian Church (Disciples of Christ) congregations. This simple and easy to read overview of Disciples eldership examines the nature of the office and describes its responsibilities and challenges. It emphasizes the importance of spirituality in the lives of elders. Straub beckons elders to embark on their leadership

adventure together, fortifying their leadership through prayer, learning, discussion, mutual accountability, and other paths to spiritual growth and encouragement. Their faithful eldership is a beacon for faithful congregations as elders' prayers become spiritual channels through which graces unfold in congregational life. That exciting prospect lies at the heart of eldership and of Straub's inspiring insights.

What if we changed the face of evangelism? In a time when so many have a negative perception of evangelism, what if a new model was entirely biblical, loaded with skills, and more effective? Soul Whisperer shifts the emphasis from "telling" to a "drawing" paradigm. It develops biblically the pattern of Jesus, who did not give static presentations but rather customized his words to each hearer. By learning his ways, our words, too, can have pinpointed impact! Christians will discover how to draw out first, in order to reach their friends and discern the relevant appeal of the gospel. In this way, the style is far more dynamic. It adapts! Understanding the non-believer's unique starting point will determine a distinct path. By creating a conversation about spiritual influence and what is involved in faith formation, this book charts ways for Christians to go deeper in evangelistic relationships. Most importantly, Soul Whisperer infuses skills that will shape a more Christ-likened missional disciple.
