Includes no. 53a: British wartime books for young people.

In this courageous story of growing up in one of the poorest areas of Jamaica, Ava Brown learned the life lessons of perseverance and survival. From a young age, Ava's self-taught belief that she was destined for more than the community's recreational activities of sex, raising babies and going to the farm gave her the courage to forge a very different path than the one expected of her. Her story starts in a poor rural area, where the need to find food often won out over school attendance, and follows her journey through her adolescent years, which were encased in the dark shadows of incest and sexual abuse, to her young adult years when the event of being held at gunpoint finally led her to flee her home country in order to save her sanity. Yet, her resilience and love for her native country allowed her to see all of her harsh and disappointing experiences as stepping stones to becoming a strong and self-reliant woman, one who is capable of helping our society to break the cycle of poverty and its effects. We welcome you to share in Ava's journey through her book, Bamboo & Fern. Using the metaphor of the bamboo, her childhood experiences gave her strong roots to grow but made her tough and bendable like the bamboo plant, she is also like a fern, vulnerable but with a huge capacity for survival. You will experience her triumphs, setbacks and trials. Bamboo & Fern will break your heart, before it makes you smile. Be prepared for a rollercoaster ride that breaks hearts, will undoubtedly motivate, Inspire and fuel the desire for change.

Developed exclusively with the Caribbean Examinations Council, this Study Guide will provide you with the support to maximise your performance in CSEC Mathematics. Written by a team of experts in the syllabus and the examination, this Study Guide covers all the essential information in an easy-to-use double page spread format and with online support. Each topic begins with key learning outcomes and contains a range of features to enhance your study of the subject.

The present book, Cases of Assessment in Mathematics Education, is one of two studies resulting from an ICMI Study Conference on Assessment in Mathematics Education and Its Effects. The book which is published in the series of ICMI Studies under the general editorship of the President and Secretary of ICMI is closely related to another study resulting from the same conference: Investigations into Assessment in Mathematics Education (Niss, 1992). The two books, although originating from the same sources and having the same editor, emphasize different aspects of assessment in mathematics education and can be read independently of one another. While the present book is devoted to presenting and discussing cases of assessment that are actually implemented, the other study attempts to critically analyze general and principal aspects of assessment. Naturally, the content of either book is enriched by the materials and perspectives provided by the other one. In order to put this book and its background into context, the nature and scope of the ICMI studies are outlined briefly below.

Newly revised in line with the latest syllabus and with a modernised, student-friendly design, including a truly interactive CD which provides

additional practice for students and brings lab work to life with exciting activities and simulations.

Our brand-new resources are written specifically to tackle the demands of the GCSE (9-1) Maths.
