Having just emerged from a prolonged civil war and faced with the urgent tasks of establishing political stability and reinvigorating an economy in tatters, the Transitional Government of Ethiopia (1991-1995) had to set a new direction for the economic reconstruction and social rehabilitation of the warn-torn and poverty-ridden country. During the Transitional Period a spate of new policies and strategies defining the development priorities, goals and implementation instruments of the new regime led by the EPRDF was introduced. This work is a synthesis of various sectoral policies and an attempt to trace the genesis of the policies, highlight the continuities, significant departures and other salient features. Each of the reviews in this digest briefly analyses the critical elements of the policies, identifies major gaps in the conceptualisation of the policy as well as the achievements registered and the challenges encountered in its implementation. The authors also try to identify the outstanding issues to be addressed by policymakers and suggest remedies. The policy reviews have been grouped into three parts and presented under social, economic and governance sectors.

This book is one of the most influential research studies on Second Language Learning ever undertaken. The Good Language Learner addresses key problems for teachers about the strategies that successful learners use, the attitudes they show to the language they are learning, the nature of their most successful experiences and similar issues. It is based on the direct experience of a wide range of learners. It enables us to recognise the combined roles of fluency activity and natural communication on the one hand, and accuracy activity with formal understanding of the language system and the mistakes that one is liable to make as a learner, on the other hand. Few works of empirical analysis in language teaching have had so much influence, and this edition should be an essential component of any teacher's library in local authority centres, schools, teacher education institutions, and the home library of language teachers.

Extra practice worksheets for Grade 6 English. May be reproduced for use with this course.
