tested for Extraction, in the hopes of being sent from Kiel's toxic Surface to the much safer Core, where people live without fear or starvation. When she proves promising enough to be "extracted," she must leave without Logan, the boy she loves. Torn apart from her only sense of family, Clem promises to come back and save him from brutal Surface life. What she finds initially at the Core is a utopia compared to the Surface—it's free of hard labor, gun-wielding officials, and the moon's lethal acid—but life is anything but safe, and Clementine learns that the planet's leaders are planning to exterminate Surface dwellers—and that means Logan, too. Trapped by the steel walls of the underground and the lies that keep her safe, Clementine must find a way to escape and rescue Logan and the rest of the planet. But the planet's leaders don't want her running—they want her subdued. With great writing, fluid dialogue, and a cast of unforgettable characters, Stephanie Diaz's *Extraction* is a page-turning, gripping read—sure to entertain lovers of *Hunger Games* and *Ender's Game*—and leave them breathless for more.

Having worked her entire life to relocate from her homeworld's toxic surface to its safer Core, Clementine discovers that her new home is anything but safe and that the planet's leaders are plotting to exterminate Surface dwellers, including the boy she loves.

Realizing that Commander Charlie will fly his Core battleship to the planet Marden at any cost, Clementine, Logan and their allies work to recruit Charlie's underage workers and hijack his ship in the hope of ruining his plans. By the author of *Extraction*. Simultaneous eBook.

Clementine's world is on the brink of destruction. An army of aliens from the distant planet Marden has arrived with a

# Download Free Extraction 1 Stephanie Diaz

massive fleet of battleships, intent on finally putting an end to the war Kiel's old rulers initiated. With the Alliance headquarters reduced to rubble and one of the rebel leaders close to death, Clementine and her friends have no choice but to retreat to the Core to escape the alien ships attacking the Surface. But safety in the Core means forming a temporary alliance with their sworn enemy, Commander Charlie. He's a ruthless man and a liar, but striking a bargain with him—his pardon in exchange for their help defeating the Mardenites—is the only way the rebels might survive the war. And Charlie needs their help too, for Marden's force is more powerful than anyone anticipated, with weapons and technologies never before seen on Kiel. Unless old feuds can be set aside long enough for a diplomatic solution to be found, all of Kiel's people will be destroyed, and everything Clementine and her friends have sacrificed in their fight for peace will have been for nothing.

If you are a high school senior or just starting college, I bet you've got it all figured out. You are about to have the time of your life - parties, no curfews, friends, fun, and a bit of school work. The next few years of college will be just like high school, except no parents, no curfews, and thank goodness no lectures. Well, that's what we thought too, but things don't always work out like we think they will. If you want real life stories and tips that will help you improve your college experience, this is the book for you.

In Miel Moreland's heartfelt young adult debut, *It Goes Like This*, four queer teens realize that sometimes you have to risk hitting repeat on heartbreak. Eva, Celeste, Gina, and Steph used to think their friendship was unbreakable. After all, they've been through a lot together, including the astronomical rise of *Moonlight Overthrow*, the world-famous queer pop

# Download Free Extraction 1 Stephanie Diaz

band they formed in middle school, never expecting to headline anything bigger than the county fair. But after a sudden falling out leads to the dissolution of the teens' band, their friendship, and Eva and Celeste's starry-eyed romance, nothing is the same. Gina and Celeste step further into the spotlight, Steph disappears completely, and Eva, heartbroken, takes refuge as a songwriter and secret online fangirl...of her own band. That is, until a storm devastates their hometown, bringing the four ex-best-friends back together. As they prepare for one last show, they'll discover whether growing up always means growing apart. "It Goes Like This was everything my music nerd heart needed AND wanted. Lyrical and heart-wrenching...beautiful representation, sweetest longing and the pop-star romance of my dreams; Swifties will swoon happily with this story tattooed on their hearts." —Erin Hahn, author of *You'd Be Mine* and *More Than Maybe*

Pia has always known her destiny. She is meant to start a new race, a line of descendants who will bring an end to death. She has been bred for no other purpose, genetically engineered to be immortal and raised by a team of scientists in a secret compound hidden deep in the Amazon rainforest. Now those scientists have begun to challenge her, with the goal of training her to carry on their dangerous work. For as long as she can remember, Pia's greatest desire has been to fulfill their expectations. But then one night she finds a hole in the impenetrable fence that surrounds her sterile home. Free in the jungle for the first time in her life, Pia meets Eio, a boy from a nearby village. Unable to resist, she continues sneaking out to see him. As they fall in love, they begin to piece together the truth about Pia's origin—a truth with nothing less than deadly consequences that will change their lives forever. *Origin* is a beautifully told, electric new way to look at

an age-old desire: to live forever. But is eternal life worth living if you can't spend it with the one you love?

Haunted by her sister's disappearance, a troubled woman becomes consumed by past secrets in this gripping thriller from the New York Times bestselling author of *The Vanishing Year*. When Hannah Maloney's aunt dies in a car accident, she returns to her family's castle in the Catskills and the epicenter of a childhood trauma: her sister's unsolved disappearance. It's been seventeen years, and though desperate to start a new life with her fiancé, Hannah is compelled to question the events of her last summer at Brackenhill. When a human bone is found near the estate, Hannah is convinced it belongs to her long-lost sister. She launches her own investigation into that magical summer that ended in a nightmare. As strange happenings plague the castle, Hannah uncovers disturbing details about the past and startling realizations about her own repressed childhood memories. Fueled by guilt over her sister's vanishing, Hannah becomes obsessed with discovering what happened all those years ago, but by the time Hannah realizes some mysteries are best left buried, it's too late to stop digging. Overwhelmed by what she has exposed, Hannah isn't sure her new life can survive her old ghosts.

In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious

# Download Free Extraction 1 Stephanie Diaz

reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

In the epic conclusion to the award-winning Continuum Trilogy, Aero leads a group insurgents from the Second Continuum to overthrow his rival, Supreme General Vinick, and unite his space colony's military forces while Seeker embarks on a secret mission back to her home colony to reinforce Earth's defenses and protect the First Continuum against an even greater threat. Meanwhile, Myra's nightmares have become a reality as the Dark Thing hurtles toward Earth with designs on eradicating the planet's fledgling populace. The only thing standing in the way are the three Carriers and those who would join them to fight against a second coming of the Doom.
