This two-in one resource includes the Tactical Commanders and Staff Toolkit plus the Liaison Officer Toolkit. Defense Support of Civil Authorities (DSCA)) enables tactical level Commanders and their Staffs to properly plan and execute assigned DSCA missions for all hazard operations, excluding Chemical, Biological, Radiological, Nuclear, high yield Explosives (CBRNE) or acts of terrorism. Applies to all United States military forces, including Department of Defense (DOD) components (Active and Reserve forces and National Guard when in Federal Status). This hand-on resource also may be useful information for local and state first responders. Chapter 1 contains background information relative to Defense Support of Civil Authorities (DSCA) including legal, doctrinal, and policy issues. Chapter 2 provides an overview of the incident management processes including National Response Framework (NRF), National Incident Management Systems (NIMS), and Incident Command System (ICS) as well as Department of Homeland Security (DHS). Chapter 3 discusses the civilian and military responses to natural disaster. Chapter 4 provides a brief overview of Joint Operation Planning Process and mission analysis. Chapter 5 covers Defense Support of Civilian Authorities (DSCA) planning factors for response to all hazard events. Chapter 6 is review of safety and operational composite risk management processes Chapters 7-11 contain Concepts of Operation (CONOPS) and details five natural hazards/disasters and the pertinent planning factors for each within the scope of DSCA.

This title has everything readers need to pass the general class written exam. Readers will find easy-to-understand theory and rules; the latest General class question pool (Element 3) with answer key, and detailed explanations for all questions, including FCC rules.

A new, case-oriented and practical guide to one of the core techniques in respiratory medicine and critical care. Concise, practical reference designed for use in the critical care setting Case-oriented content is organised according to commonly encountered clinical scenarios Flow charts and algorithms delineate appropriate treatment protocols

You're probably thinking this is just another typical study guide. Because we know your time is limited, we've created a resource that isn't like most study guides. With Trivium Test Prep's unofficial CCRN Review Book 2019-2020: CCRN Exam Prep Study Guide and Practice Test Questions for the Critical Care Nursing Exam you'll benefit from a quick-but-comprehensive review of everything tested on the exam via real-life examples, graphics, and information. Our materials give you that extra edge you need to pass the first time. AACN was not involved in the creation or production of this product, is not in any way affiliated with Trivium Test Prep, and does not sponsor or endorse this product. Trivium Test Prep's CCRN Review Book 2019-2020 offers: A detailed overview of what you need to know for the CCRN exam Coverage of all the subjects over which you will be tested Practice questions for you to practice and improve Test tips and strategies to help you score higher Trivium Test Prep's CCRN Review Book 2019-2020 covers: Cardiovascular Pulmonary Endocrine Hematology/Immunology Neurology Gastrointestinal Renal Multisystem Behavioral/Psychosocial Professional Care and Ethical Practice...and includes a FULL practice test! About Trivium Test Prep Trivium Test Prep is an independent test prep study guide company that produces and prints all of our books right here in the USA. Our dedicated professionals know how people think and learn, and have created our test prep products based on what research has shown to be the fastest, easiest, and most effective way to prepare for the exam. Unlike other study guides that are stamped out in a generic fashion, our study materials are specifically tailored for your exact needs. We offer a comprehensive set of guides guaranteed to raise your score for exams from every step of your education; from high school, to college or the military, to graduate school. Let our study guides guide you along the path to the professional career of your dreams!

"Finnish pupils' success in international student assessment tests and the characteristics of the Finnish educational system are the focus of interest all around in the world. The significance of Finnish educational policy and societal atmosphere are continuously discussed. This book provides explanations, answers and reflections to these questions. Over 30 expert authors have contributed to this book by bringing their own specific research-based points of view. The second edition of the book introduces the new national curriculum for basic education that now provides guidelines for school-based curricula. Students' learning with engagement and schools as learning communities are core visions of the reform. The authors also reflect on the PISA 2012 results. The book gives an example on how to use PISA information for national improvements. In Finland, all evaluations are enhancement-led and this also includes PISA measurements. The book illustrates how teaching and learning of different subjects is realized in Finnish schools and describes the essential characteristics and methods of teaching, learning materials and research on these issues. The book provides important insight and reflections to international researchers, teachers, students, journalists and policy makers, who are interested in teaching and learning in Finnish schools. It shows the results of the systematic and persistent work that has been done on education and schooling in Finland. The main features of education in Finland are: Strong equity policy. Teachers as autonomous and reflective academic experts. Flexible educational structures and local responsibility for curriculum development. Evaluation for improvements, not for ranking. No national testing, no inspectorate. Research-based teacher education. Teachers' high competence in content knowledge and pedagogy. Trust in education and teachers."

Comprehensive Critical Care: Adult is the most complete critical care textbook for any learner in adult practice. Developed by leading experts in critical care, this comprehensive textbook covers 10 topic areas, including -Neurologic Critical Care - Cardiovascular Critical Care -Respiratory Critical Care -Critical Care Infectious Disease -Hepatic, Gastrointestinal, and Hematologic/Oncologic Disease in the ICU -Renal and Metabolic Disorders in the ICU -Environmental and Toxicologic Injury - Pharmacologic Issues in the ICU -Surgical and Obstetrical Critical Care -Administrative and Ethical Issues in the Critically Ill This new resource includes up-to-date information on the full gamut of critical care topics, with dozens of charts and tables to aid study and copious references to guide further reading.

This volume in the Content Review Plus Practice Series polishes your knowledge of pediatric nursing while sharpening your critical thinking and test-taking skills. Each chapter offers a concise, yet comprehensive review of the topic, followed by NCLEX-style questions in both multiple-choice and alternate-item formats. Rationales for both correct and incorrect answers, as well as test-taking tips, explain how to apply critical thinking to the question types—great preparation for classroom exams and the NCLEX-RN® Exam.

This book constitutes the thoroughly refereed post-conference proceedings of the 5th International Conference on Mobile Computing, Applications, and Services (MobiCASE 2013) held in Paris, France, in November 2013. The 13 full, 5 short and 9 poster papers were carefully reviewed and selected from 64 submissions, and are presented together with 3 papers from the Workshop on Near Field Communication for Mobile Applications (NFS). The conference papers are covering mobile applications development, mobile social networking, novel user experience and interfaces, mobile services and platforms such as Android, iOS, BlackBerry OS, Windows phone, Bada, mobile software engineering and mobile Web, mobile payments and M2M infrastructure, mobile services such as novel hardware add-ons, energy aware services or tools, NFC-based services, authentication services.
