In a vast and all-embracing study of Africa, from the origins of mankind to the AIDS epidemic, John Iliffe refocuses its history on the peopling of an environmentally hostile continent. Africans have been pioneers struggling against disease and nature, and their social, economic and political institutions have been designed to ensure their survival. In the context of medical progress and other twentieth-century innovations, however, the same institutions have bred the most rapid population growth the world has ever seen. Africans: The History of a Continent is thus a single story binding living Africans to their earliest human ancestors.

The reader is then presented with 214 real-world case studies in which each choice of risk structure is explained and assessed. Interest areas: project finance, currency risk, credit risk, counterparty, joint venture documentation, emerging markets.

The Handbook of 21st Century Management provides authoritative insight into the key issues for students in college or corporate courses with a particular emphasis on the current structure of the topic in the literature, key threads of discussion and research on the topic, and emerging trends. This resource is useful in structuring exciting and meaningful papers and presentations and assists readers in deciding on management areas to take elective coursework in or to orient themselves towards for a career. Indeed, familiarity with many of the topics in this Handbook would be very useful in job interviews for positions in business.

David Spiceland, Wayne Thomas and Don Herrmann have developed a unique text based on over 50 collective years of experience in the classroom. They've brought together best practices like highlighting Common Mistakes, offering frequent Let's Review exercises, integrating the course with a running Continuing Problem, demonstrating the relevance of the course to non-majors with a Career Corner, and communicating it all in a student-friendly Conversational Writing Style. The new 2nd edition of Financial Accounting, Spiceland, Thomas, Herrmann, has been developed with feedback from over 330 reviewers and focus group participants from across the country. The following list of changes and improvements is a testament to the many hours that reviewers spent analyzing the 1st edition, helping make Financial Accounting, 2nd edition, the best book of its kind.
