INSPECTION AND TESTING FORM - NFPA

Technicians must check waterflow switches, tamper switches, and supervisory devices when servicing the fire alarm system. This typically adds at least 20% to the cost of fire alarm inspection and testing. Other devices take longer to service so they're more expensive than basic devices. These inspections and tests include smoke detector sensitivity, duct detector, vesda, ir detector, and gas detector. Additionally, facilities with elevators require special inspection and testing.

What's the Cost of Fire Alarm Inspection and Testing?

The NFPA 72®: Inspection, Testing, and Maintenance of Fire Alarm Systems Online Training is a building block of the CFPE Learning Path and CFI-I Learning Path—a series of web-based training that can help you plot a successful journey to advanced certification.

NFPA 72®: Inspection, Testing, and Maintenance of Fire ...

To inspect and test the fire alarms, it takes a team of two technicians. The first technician is stationed at the fire alarm panel, while the second technician goes from floor to floor inspecting and testing the smoke detectors, fire alarm pull stations, and the fire alarm horns & strobes. The technician at the fire panel checks to see that the fire alarm panel is activated when a smoke detector or fire alarm pull station is activated.

What is the Fire Alarm Inspection Process?

Fire alarm inspections and tests are necessary to ensure that

This book is an introductory outline of NFPA 72, 2010 edition based upon the National Fire Protection Association training seminar in Fire Alarm Inspection and Testing given in December 2009. This book concentrates on Inspections as opposed to Testing and gives a foundation in the NFPA 72, 2010 edition of the National Fire Alarm Code book for Inspections as a separate job function. The purpose of this book is to clarify to other inspectors, managers, customers, and authorities having jurisdiction; when to inspect and when to test; based upon the National Fire Protection Association training seminar in December 2009.
